Brent Mondoux, N-VisionIT Interactive CEO

## **PRESS RELEASE**

### **N-VisionIT Named Canada's Best Android Development Company**

**Ottawa web design and mobile application firm builds top apps for top agencies**

Ottawa, ON, Sept. 16, 2013— Ottawa website development firm N-VisionIT Interactive has just been named [Canada's top Android development company](#) by [Best Web Design Agencies](#) for September 2013.

“We’re very proud to be recognized for our leadership in the mobile market space. This is a really nice by-product of our work and our attention to detail,” says Brent Mondoux, CEO of N-VisionIT Interactive.

The [Ottawa mobile application company](#), which has created mobile apps, websites and social media strategies for Fortune 500 companies and government agencies around the world, took the top spot in the competition with the only perfect score. The rankings analyze factors such as design and development quality, customer support, speed and bug testing to determine the ten best Android developers in Canada.

Mondoux says N-VisionIT’s commitment to going beyond the basics of creating attractive applications has also contributed to the envious position of being ranked the seventh best iPhone development company in Canada. As a result of their relentless pursuit of perfection, N-VisionIT’s client retention rate is amongst the best in the world.

The N-VisionIT-team helps business owners achieve success by leveraging a methodology that handles the entire life cycle of a mobile application and aligns their mobile application goals with the long-term goals of their business.

“We take the time to understand a client’s business, their industry, their competitors, and what they want to achieve over the next five years,” says Mondoux, whose company has created popular mobile apps for Algonquin College, Text2 Systems, Singles Around Me and ScreenDASH!

“We don’t build apps simply to make a paycheck, we build apps to make a significant difference in our customers’ businesses and their customers lives.”

Being named Canada's best Android development company comes on the heels of several other successes for N-VisionIT. The Ottawa web development company was recently named a finalist in the Ottawa Business Achievement Awards, and CEO Brent Mondoux also received Ottawa's Forty Under 40 award in 2013 for his business achievements and community contributions.
