

## EDI TRANSLATION & COMMUNICATION FOR THE TRANSPORTATION INDUSTRY

# Eliminate the Recurring EDI Fees

With Tranzactor™ you can process EDI using direct FTP or AS2 communications through your existing internet connection and thus retain your cost savings for data-entry, billing, and customer service.

By eliminating the VAN (Value Added Network) and sending your documents direct to your customer you **save yourself thousands of dollars per month in fees**. You can send or receive as much data as you need without any additional transaction or communication costs.

“Tranztec Solutions has done a tremendous job getting our transaction processing on the right track and moving forward in our fast-paced industry. Their team goes above and beyond to get the job done.”

**Bestway Express**

## Supported Transactions:

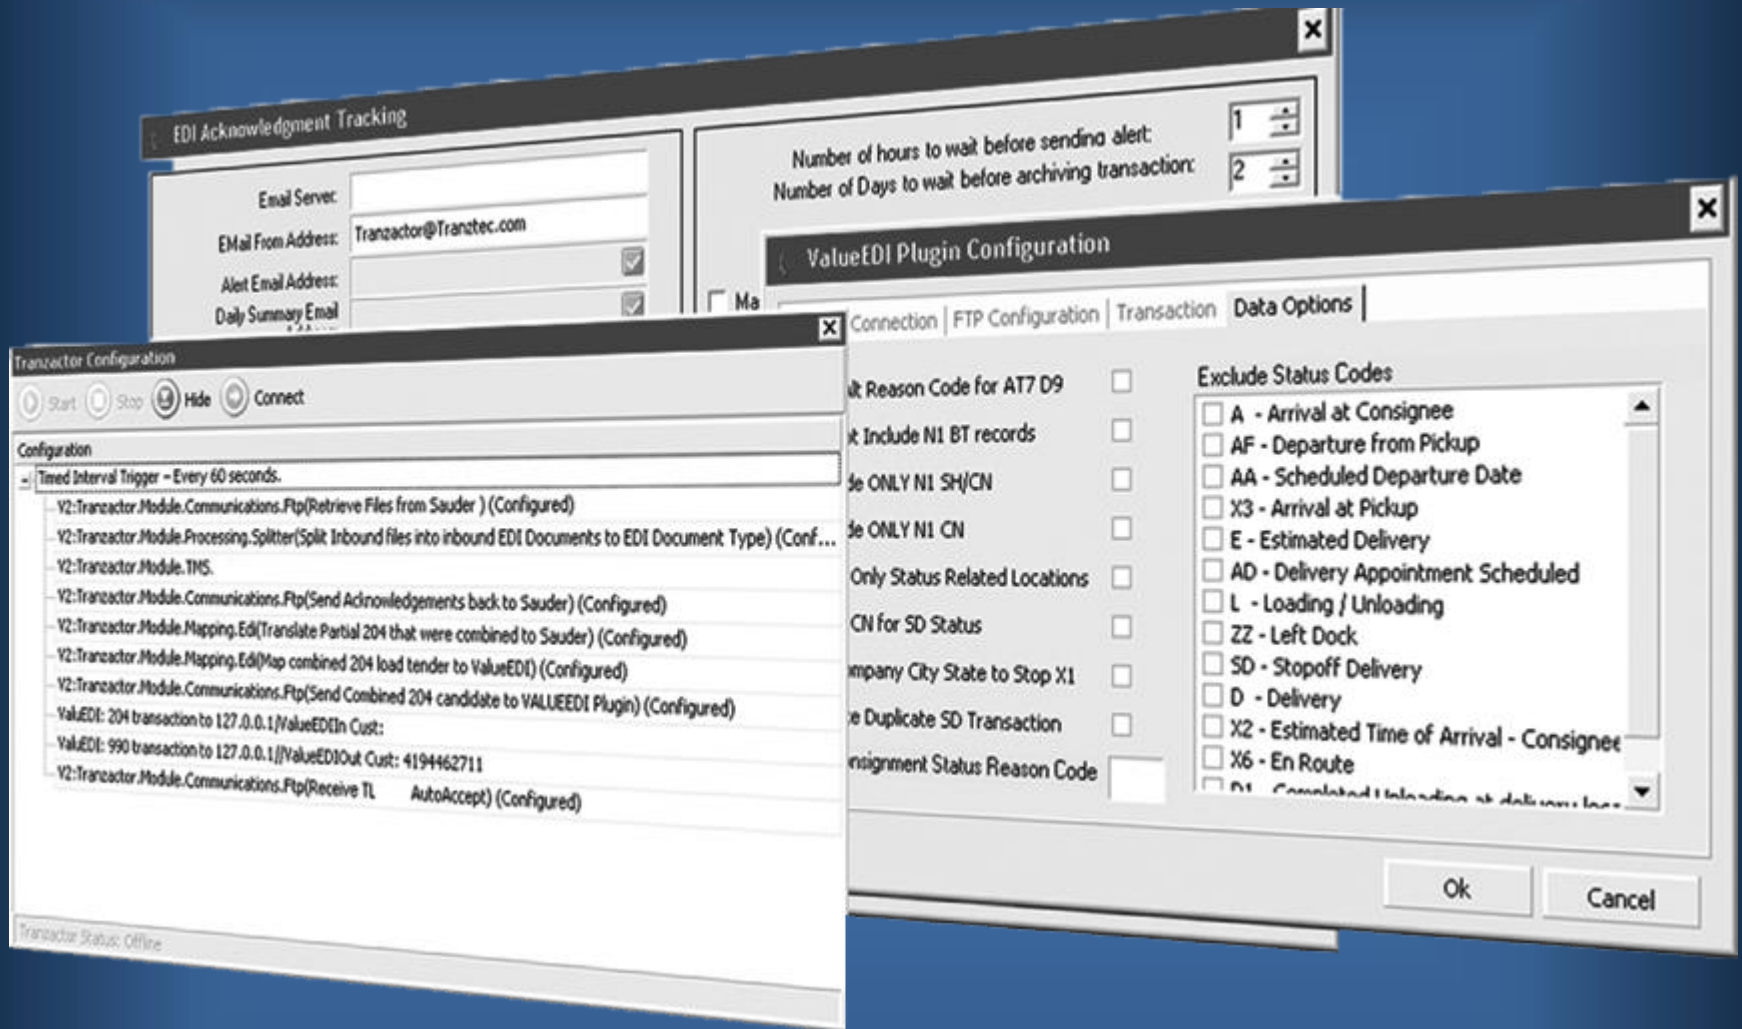

- ✓ Load Tender (204)

# About Us

**Specializing in Technology  
for the  
Transportation Industry**

Tranztec Solutions, Inc. was founded in 2001 as a full service technology consultancy. Originally founded to serve local industry in Northwest Ohio, we quickly grew to serve customers within 48 states of the continental U.S. as well as Canada.

## **Knowledgeable Staff**

Our employees consist of a group of highly trained, certified, and dedicated technicians, network engineers, developers, analysts, designers, and business managers.

Our staff carries industry standard certifications from Microsoft, Cisco, 3Com, IBM, Novell, ANX E-business, and others. They are dedicated to finding you the most productive, cost-effective solutions tailored to your company's need.

## **Transportation Industry**

Tranztec Solutions' professionals have over 20 years expertise in software development in the transportation industry. From EDI solutions to TMW support, we have experience in every information technology area of the business. Our goal is to provide the software, hardware, and resource solutions to enable our clients to move forward as technology advances and business requirements change.
