

Key **NEUROLOGIC** Nutrients

AlphaSize® A-GPC supports production of a chemical in the brain called acetylcholine. This brain chemical is important for memory and learning functions.

SerinAid® PS promotes memory function, especially due to age-related cognitive decline, contributes to the maintenance and enhances many critical brain functions.

L-Theanine supports elevated memory, attention, and brain activity.

Vitamin E supports the delay of cognitive decline.

Folic Acid supports significantly improved cognitive performance in older adults.

L-Tyrosine is a building block for important neurotransmitters.

Choline Bitartrate - Choline is a direct precursor for Acetylcholine which is one of the neurotransmitters that controls memory formation and a number of other cognitive processes.

Rhodiola Rosea may support improved short-term memory, calculation, concentration, mental clarity.

Huperzine-A has antioxidant and neuroprotective properties.

Ginkgo Biloba may help to combat cognitive impairments and memory loss.

Alpha Lipoic Acid is a water and fat soluble antioxidant that may help protect the brain from harmful free radicals.

DMAE is a crucial substance that functions as a building block for choline, which allows the brain to manufacturer acetylcholine.

Brain Health Supplement
for Neurotransmitter Support

Think Fast.

Fuel Your Brain

Regardless of age, gender, or profession, everyone depends on the brain. It allows us to learn new things, warns us of danger, helps us figure out solutions to problems. Unfortunately, the cognitive function is susceptible to decline with age, and also in times of physical and mental stress. Proper nutrition can ensure your brain is operating at peak performance, despite these factors. Liquid Health™ **NEUROLOGIC** provides the nutritional foundation for superior brain function. Whether you are studying for finals, or just tired of forgetting where you put the keys, **NEUROLOGIC** can help.

The Nutritional Foundation of the Brain Performance Puzzle

The brain is a complex organ that requires a careful blend of nutrients to achieve its maximum potential. Liquid Health™ has carefully formulated **NEUROLOGIC** to support brain function with critical phospholipids, amino acids, antioxidants, vitamins, and several well known herbal supplements such as Ginkgo Biloba and Huperzine-A.

- Great for students, seniors, professionals
- Carefully formulated with clinically studied nutrients and additional effective supplements
- Contains NO artificial coloring or flavoring
- Highly bioavailable liquid offers superior absorption
- Antioxidant Support
- Made with care in the USA
- Great tasting
- Easy to use
