## **New Company, Epic Safety Inc., Advances the Field of Personal Emergency Response Systems (PERS) with Innovative Epic Alert Product Line.**

*Epic Safety is reinventing the meaning of Personal Emergency Response Systems (PERS) with a new line of Epic Alert products that are designed to meet the emergency needs of every individual. Specialized in manufacturing highly advanced devices that improve safety to lend peace of mind, Epic Safety brings the best in PERS to dealers at an affordable price. Epic Safety's extensive product range gives users access to help at the click of a button anytime and anywhere.*

Epic Safety is changing the way people think about PERS – it's not solely for seniors. Epic Alert's Personal Emergency Response Systems go beyond the limitations of typical medical alert units providing everyday safety solutions for all emergency situations. Boasting features like two-way voice communication, fall alert, inactivity monitoring, medication cabinet monitoring, call cancellation, voice prompts and a built-in high and low temperature sensor, Epic Alert reinforces the safety of any environment.

Better yet, there is more to come, although the first string of products are scheduled to launch in the fall of 2013, Epic Safety is continually designing new devices to meet the specific needs of every individual. Carbon Monoxide detectors, smoke detectors and pendants equipped with GSM/GPS are just a few of the devices on the way.

Epic Safety's founder has over 24 years of experience in the security and monitoring industry. In 2013 he recognized the need for PERS devices that capitalize on the latest technology in North America. As a result, Epic Safety developed Personal Emergency Response Systems with multiple device connection ability to cater to the ever-changing needs of the modern lifestyle. The founder of Epic Safety, outlines the mission of the company stating, "We strive to advance the field of PERS and make top-of-the-line life safety devices available to all."

The entire product line will be available through local distributors. For more information on Epic Alert's product line, please visit: [www.epicalert.com](http://www.epicalert.com).
