

The Complete Testosterone Solution: Review Examining Dan Robey's New Fitness System Released

SUMMARY: *DietsAndFitnessGuides.com releases a review of The Complete Testosterone Solution a newly launched fitness e-book with a "new mobile technology" that enables users to be trained at home or in the gym by celebrity personal trainers.*

The Complete Testosterone Solution - a new fitness system from Dan Robey that includes access to a "celebrity training portal" has just been released to the public stunning the fitness world, and prompting an investigative review from DietsAndFitnessGuides.com's Vince Delmonico.

"One of the most frustrating things about getting older is feeling like your metabolism is grinding to a halt," says Delmonico. "A lot of guys in their 30s, 40s and 50s work out harder than ever did in their 20s, but for some reason they just can't get rid of their stubborn fat stores. So, when we heard about Dan Robey's new Complete Testosterone Solution program we were eager to review it for our website visitors. The program promises to reveal the 'secret formulas' movie stars and pro athletes use to super charge their metabolisms and we wanted to see if this was something we could recommend to our audience."

Delmonico's review reveals that customers purchasing The Complete Testosterone Solution also receive access to The University Of Testosterone, a first of it's kind training portal that allows users to be trained by celebrity trainers who work with top NFL Players, NBA Players, and Hollywood movie stars.

"The thing that impressed us the most about Robey's program, which we discussed in our review was the University Of Testosterone training portal," says Delmonico. "This portal gives regular guys access to the elite trainers who work with today's most in shape celebrities. These trainers, guys like Billy Beck III, have access to insider knowledge that was previously unavailable for anyone except their elite clientele. We anticipate that our audience will find this training enlightening, and quite different from what the mainstream fitness industry has told them about how to get in shape, and effectively boost testosterone."
