

## **Market Mastery 2.0 Review: Announces Less Than 24 Hours Until Enrollment Closes for Bill Poulos's Web-Based Trade Alert Software**

*A Market Mastery 2.0 review at [MarketMasteryReviewBonus.com](http://MarketMasteryReviewBonus.com) announces that open enrollment closes in less than 24 hours for Bill Poulos's new web-based trade alert system. The review also discusses the pros and cons one trader should expect from enrollment.*

New York, NY ([PRWEB](http://PRWEB)) September 18, 2013 -- A Market Mastery 2.0 Review unveils and examines Bill Poulos's new trade alert software recently. The review aimed to find out whether the program that claimed to equip individuals with the skills to beat the recession can really do that in four easy steps. The things highlighted by the review can help individuals determine whether the forex product is really worthwhile.

[Market Mastery 2.0](#) is intended for traders who do not have the luxury of time. This means that people with regular nine-to-five jobs and with families to take care of can still use the stock market to earn additional income.

Basically, the [Market Mastery 2.0 review](#) states the best parts about the product. One of the best features of Market Mastery is the easy to follow steps. Beginners in the stock trading world do not have to encounter lots of hardship in using the system as the steps are very simple to understand. Another feature is the student support offered by the creators of the Market Mastery. It is easy for members to access the exclusive member website. The product also lowers the users' risks of losing money and offers a 60-day money-back guarantee.

What can users expect to get upon investing? One, they can get The Home Study Course that comes in CD download form with 6 different modules. The course provides the basics of the simple four-step system, the explanation for how the system works and samples of how the system can be used to find profitable market trends. The first to fourth modules teach tips on how to buy on weaknesses and sell on strength, how to use a "pennant" or "flag" formation to one's advantage, and how to use the technique called counter-trending. The program includes additional eight live group coaching sessions, one year of web-based software access and trade alerts, a year's worth of unlimited email support, access to bonus tutorials, and access to the members website.

Who came up with Market Mastery? The genius behind the whole thing is Bill Poulos. Mr. Poulos has had 35 years of experience in the trading market. Together with this, he holds a masters degree in business administration. These two credentials combined make him a formidable and reliable figure in the stock financial markets. Furthermore, Bill has come up with other effective trading systems that have helped thousands of traders.

In conclusion, [Market Mastery 2.0](#) is a trading product and software that traders should consider to have in their portfolio. The features and benefits that come with this stock trading software can make traders better in their craft of trading online for ego or profits.
