

**PROOF OF CARE  
AT POINT OF CARE**

## Add the assurance of electronic visit verification to your Kinnser subscription

Kinnser VisitVerify™ verifies homecare visits with a simple patient signature at point of care. Because VisitVerify is built into Kinnser Agency Manager™, the workflow is seamless and easy. Signatures, along with the visit's time and location, are filed in real-time and automatically attached to the patient's chart. No fuss, no mistakes.

VisitVerify gives administrators real-time oversight and immediate verification that visits have taken place. And clinicians have indisputable proof of the good work they do.

## Kinnser VisitVerify helps you

- **Prove the care you provide**

When your patients sign at point of care, VisitVerify captures the time, date, and location of your home care visit. This provides valuable proof that your visit took place.

- **Have real-time oversight of visit status**

Patient signatures are immediately accessible through the patient's chart in Agency Manager™. You'll know the status of every visit in real-time.

- **Say goodbye to cumbersome signature sheets**

Dramatically reduce the time and resources you spend reconciling payroll and validating complete documentation. No more preparing, scanning and filing signature sheets!

## How it works

Using GPS, cellular and Wi-Fi technology, Kinnser VisitVerify records the time, date and location of the home care visit using tablet devices (iPad and Android). Clinicians launch KVV right from their Hotbox; the patient signature is then attached to the patient's chart and appears in Episode Manager and Payroll Manager.

## Get started with VisitVerify

It's easy! Add VisitVerify to your Kinnser subscription, call **877.399.6538** or visit **www.kinnser.com/kvv**.

Santé Home Healthcare  
reduced **payroll**  
processing time **75%**  
using VisitVerify

*As an administrator, I'm juggling a lot of responsibilities. VisitVerify gives me a new level of managerial oversight concerning our visits... and it's in real time.*

**Coleen Murphy-DeOrsey, RN, BS**  
Chief Operations Officer  
Optimal Care, Inc.

*We're getting much better compliance results with VisitVerify than signatures on paper.*

**Jeff Hammond**  
President/Owner  
Sea Crest Home Health Services, Inc

*The signatures are attached right to the patient's chart in Kinnser. Having the verification at our fingertips in the same system we use at point of care is a huge benefit.*
