

Sexual Decoder System that claims to help single men recognize and interpret any woman's sexual signals has just been released by dating coach Craig Miller. The controversy over Craig's program and his techniques has caught attention of GentlemensUniversity.com's Stan Stevenson, prompting an investigative review of his course and techniques.

"Craig Miller revealed some of his best techniques on national TV and it actually backfired on him because he was actually revealing the 'truth' that many did not want to hear. Of course, with every controversy there are people who want to dig in and find out the rest of the story. Everyone wanted to learn what the big deal was - including me," states Stevenson. "To see what was causing all the fuss, I bought the <http://gentlemensuniversity.com/sexual-decoder-system-review> [Sexual Decoder System home study course __title__ Sexual Decoder System] and filmed the whole buying process to show everyone what they are really getting into. I have since posted that video to my website and show everyone around the members area so they can judge for themselves."

The digital program comes with hours of professional videos broken into 9 HD modules and comes with downloadable pdfs. For those that purchase the program, they receive the main course, plus additional bonuses like "Body Language Speed Reading", "Secret Language Pocket Decoder", a crash course on getting inside the mind of attractive women plus access to the Inner Circle Training.

"After my Sexual Decoder System review I found that the program is great for guys no matter what level they are currently at and can even work for shy guys like me. After going through his course, it's no wonder that it is quickly becoming a top seller and that Craig is becoming a highly regarded dating coach. He is so confident in his program that he is even offering a 60 day money back guarantee."
