

## What Eurofins Eaton Analytical Can Do For You

Eurofins Eaton Analytical is the largest and most preferred full service water quality testing laboratory in the United States. We have been in operation since 1969 and maintain a proud and successful history providing the water and beverage industry with high quality testing, data management and other customer-focused services. We are ISO 17025-accredited and also certified under the NELAC Institute (TNI) national accreditation program, as well as other Federal, State and private organizations to perform routine and specialized analyses. We are also approved by the U.S. EPA to perform all 7 UCMR3 methods.
