

## eMobilePOS for Retail Pro® Management System

Wow customers and boost sales with impeccable service and speedy checkout.

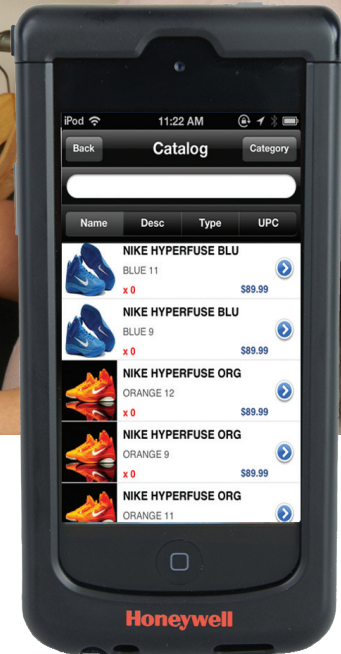

The eMobilePOS mobile point-of-sale software enables Retail Pro® customers to turn Apple iOS and Android handheld devices into mobile cash registers that can process sales transactions from any location—essentially eliminating checkout lines and so-called abandoned shopping carts while enabling personalized customer service.

### Seamless integration with Retail Pro

eMobilePOS seamlessly integrates with the Retail Pro software, making sure that inventory, sales data, price and customer information are always up to date. eMobilePOS has a modular interface and is offered as an easy-to-install plug-in.

### Plug-n-play installation

A broad selection of certified peripherals such as payment sleds and mobile printers allows for customization with easy plug-n-play installation right out of the box so you can be up and running in minutes! The eMobilePOS solution is highly scalable, making it an ideal fit for boutique retailers as well as multi-store operations.
