

Boatrac BTConnect[™]

Web-based messaging and mapping software to access fleet-wide data across communications hardware from any device!

CONNECT *with your entire fleet from any device*

Get Easy Access - Login from any device to get the right information at the right time. Whether you are working from home, traveling or simply out of the office, BTConnect keeps you in constant connection with your boats.

View Every Vessel - See all of your boats on a single, web-based interface. BTConnect provides a unified view of your entire fleet and can work with any on-board communications hardware.

COMMUNICATE *through a single interface*

Integrate Functions - Tie together fleet mapping with two-way messaging to increase operational efficiencies. Create vessel groups and sub-groups to enhance communications at the divisional and corporate levels.

Improve Dispatching - Boost vessel performance with critical route planning capabilities. Utilize standard or custom layers and landmarks, and integrate AIS data to maximize your competitive advantage.

CONTROL *your data to make better decisions*

Vessel Permissions			
Name	View Position	Ping	View Mes
Bronxwater_1	✓	✓	✓
Cast_0_1	✓	✓	✓
Contender_0	✓	✓	✓
Grand Lake_1	✓	✓	✓
Harbor_1	✓	✓	✓
Indian Bayou_1	✓	✓	✓
Innovator_0	✓	✓	✓
Ocean Endeavor_0	✓	✓	✓
Ocean Fighter_0	✓	✓	✓

User Permissions - Grant full or limited access to employees, customers or third parties to optimize the flow of information. Permissions include viewing messages, sending messages, viewing positions and pinging a vessel.

Enhance Bottom Line - Get information from your fleet when you need it to improve customer service and responsiveness. Accelerate invoicing, streamline back-office operations and improve your business performance.
