

## iPatientCare Integrated Merchant Services

### An exclusive benefit for iPatientCare Customers From Easy Pay Solutions' Merchant Services

Easy Pay Solutions' Merchant Services has teamed up with iPatientCare to offer an integrated debit card and credit card payment processing solution to expand your patient's payment options and to simplify your billing and collection operations. Easy Pay, a revenue cycle management tool, will soon be integrated directly in iPatientCare's medical billing / revenue cycle management module. Sign up now to take advantages of our advanced payment options and low processing rates which include:

- Specially negotiated low rates for the iPatientCare Medical Practices
- Integrated within the iPatientCare billing/revenue cycle management system
  - Single card swipes that automatically posts to the patients account
  - Payment Plans
  - Signature on File stored securely for payments for future services
  - Reduces costly mistakes
  - Get paid before the statement goes out
- Secure and PCI compliant
- Online access to critical reporting information
- 100% U.S. based customer service and 24/7 technical help desk support
- Proven system uptime of over 99% for ultimate reliability, even during the busiest times of the year
- Automatic settling with the bank to assure lower costs and faster payments
- As soon as next business day access to funds (a slightly higher rate applies)
- Access to a comprehensive suite of other innovative payment solutions to help your business

iPatientCare merchants enjoy benefits like these:

- Automatic posting to the patient's account
- Simple, straightforward implementation, set-up and training
- Additional training at no cost for current and new employees
- Consolidated statement for all credit card types
- Charge back handling
- Monthly reporting for easy reconciliation
- Easy-to-use, plug-and-play card swipes - no more expensive terminals, no more expensive phone lines
- Reprogramming of most existing, compatible credit card terminals
- "Access Security" to allow your staff access to certain information and functions within Easy Pay
- Detailed and custom reports
  
- Supports these card types:
