

Iris Data Services Opens London Office and Data Centre
Electronic Disclosure Company Establishes Operations to Support EU Operations

LONDON, October 21, 2013 — Iris Data Services, Inc. a leading provider of managed discovery services in the United States, announced today it has formed a private limited company, Iris Data Systems Ltd., and opened an office and data centre in London. Iris' central London office is at 101 Finsbury Pavement, London, EC2A 1RS, U.K., +44 (0)203 514 4801, just north of central London's financial district at the Moorgate station on the Northern line of the London underground. Iris' latest data centre is in south London at 35 Imperial Way, Croydon, CR0 4RR, U.K. Iris Data Services is a leading supplier of discovery solutions including electronic discovery & disclosure, managed litigation services, and document review technologies such as kCura's Relativity, which includes Relativity Analytics and Relativity Assisted Review.

"This is another significant milestone in the growth our company," said Major Baisden, president of Iris Data Services. "The success of Iris' managed services offering and our per custodian, fixed-fee electronic discovery & disclosure process, has allowed Iris to expand our operations in New York, open a customer service centre in Atlanta, and now an office and data centre London to service Iris' U.K. and European clients. The data centre will allow Iris to locally process data for European companies so that the data never leaves the EU."

Iris' data centre sits south of central London in Croyton, has 8,400sq m of server hosting facilities, and is ISO9001 and ISO27001 certified. The Iris data centre has multi-level security with 24/7/365 manned operations, 2N+1 redundant power systems with external plant and cooling facilities, and six international Internet service providers.

About Iris

Iris Data Services is a leading supplier of discovery solutions including electronic discovery & disclosure, managed litigation services, and document review technologies. Lead by recognized experts in electronic discovery and document review, Iris continually strives to defensibly reduce the amount of reviewable data on every matter. As a Premium Hosting Partner and Certified Reseller of Relativity by kCura, Iris' extensive document review expertise includes complex search consulting, computer-aided review technologies, and experienced attorney review teams. Iris' discovery experts, project management team, and use of technology have combined to make it one of the fastest growing companies in the industry. In 2011, Iris Data Services made the Inc. 500 list of the fastest-growing private companies in America, making Iris the fastest growing eDiscovery company in the
