Enabled by Ultrabook™ Devices

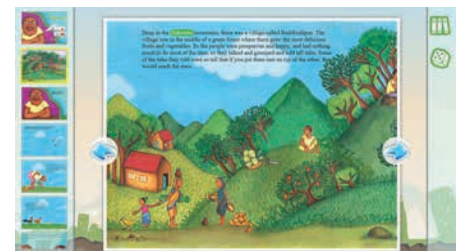

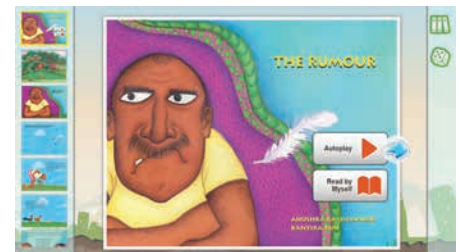

Digital learning devices have provided new ways for learning and discovery. MangoReader by MangoSense Pvt. Ltd., for Ultrabook™ devices and Windows* 8 tablets with an Intel® Atom™ processor, is an innovative new reading platform that provides an innovative new approach to books that makes them more engaging and fun.

The MangoReader by MangoSense Pvt. Ltd. on Ultrabook™ devices and Windows* 8 tablets with Intel® Atom™ processors provide an innovative way for children, parents, teachers and more to read and learn. MangoReader brings books to life by expanding them beyond traditional content to include videos, animations, quizzes, maps, graphics and more. Plus, this app incorporates the ability to take notes use learning tools such as dictionary, search and quizzes.

mangOreader

New Ultrabook devices and tablets with Intel Atom processors offer a new way to learn while having fun in new interactive ways. MangoReader provides multiple engaging ways that allow children to enjoy reading fun children's books through touch, audio and visual mediums. It's an entertaining and educational approach to reading that is not only redefining books, but changing the way children learn. The MangoReader offers numerous benefits including:

- Interactive character animations that connect to touch, accelerometer and other sensors
- Games to engage and enhance the learning experience for each story including memory game, word search game, puzzle games and more
- Read-along word highlighting promotes word recognition among young readers
- Top-notch illustrations keep kids entertained and stimulates their imagination
- The ability to read independently or follow along with expert narration. Also, the ability to record personalized audio and share with friends.
- Read textbooks, take notes, make highlights, search and share
- Provides tools like dictionary, highlight text, take notes, interact with maps and more
- Multi-lingual stories to learn languages like Hindi, Marathi, Tamil, Bengali, Telugu, Spanish, French, German, Italian, Russian, Arabic and more.
- Share notes with friends through social networks including Facebook, Google plus, Twitter and more

Mango Reader for Ultrabook devices and tablets with Intel® Atom™ processors is a great tool for numerous people, including:

Young Children

Mango Reader helps young children learn to be read with digital books that feature audio voice reading that highlights each word as it is read, as well as games to supplement learning. Plus, the colorful pictures and videos bring books to life that makes them more exciting and appealing. With the help of sensor enabled apps and books, kids can mimic real life experience in books and can even customize the characters, story and play within the story.

Students/Teachers

With educational textbooks available on a wide range of subjects on Mango Reader, students and teachers can benefit from an interactive approach to learning. Audio, video and animation, along with the written word and quizzes help make learning easier. Plus, students and teachers can take notes, make highlights, search and share their work. This enables the teacher to become a facilitator for learning and collaborating with students.

MangoReader Powered by Ultrabook™ Devices

New Ultrabook devices provide an engaging, visually-rich and fun platform for children to read with MangoReader. With the interactive touch and keyboard capabilities, visually-rich display and Intel® Core™ processors, reading and learning has never been more fun for children.

Or, for an enhanced tablet experience, try MangoReader on a Windows* 8 tablet with an Intel® Atom™ processor. It provides a power-optimized experience that allows users to listen, watch, and play without worrying about battery life. Get fast Web browsing, super-responsive apps, seamless downloads, and the best Windows* 8 experience, plus compatibility with all your programs and devices.
