

Capabilities Statement

An Information Technology Security Company providing Trustworthy Computing Solutions

The business of ProvenSecure Solutions is TRUST. This means protecting personal identity and putting the user securely in control of his or her cyber environment as required by adherence to laws and personal information standards that enterprises must obey. ProvenSecure Solutions, LLC (“PSS”), a New Jersey Limited Liability Company, was formed as a vehicle to bring together a group of prominent industry players with the expertise and experience to accomplish this goal. Our enterprise platform enables PSS to effectively pool and manage people and IT resources for the purpose of building and deploying the secure user interface that is the nexus of PSS product development.

What sets PSS apart is the ability of our user interface products to thrive on complexity while learning to increase the security of each user with each use of the product. Therefore as the number of users grows the process of building greater and greater Personal Security inevitably leads to a growing Community of Trust and a safer and more secure Cyber Society.

Core Capabilities

1. Developing and offering of proposals for government cyber security research grants and procurement requests .
2. Integration of open source projects leading to development of user friendly next generation security products.
3. Integrating affiliate security products using the reseller model.
4. Designing, building, and marketing innovative cyber infrastructure to leverage inevitable technologies for Trustworthy Computing

D-U-N-S: 078766822 Cage Code: 6VAH3

NAICS Codes: 511210, 518210, 541511, 541690, 541512

Core Team

Registered Agent - Roman Anderson
Enterprise Agent – William Whitescarver
Program/Project Management – Robert O’Brien
Principal Investigator - V Rao Bhamidipati
Senior Researcher – Stephen P. King
Community Relations - Paul Dube
Application Architect – Allen Francom
Network Engineer - George Marselis
Business Development - Marty Pisano
Graphics and Design - Arek Mateusiak
Contracts - Kendall Williams
Senior Fellow - James Whitescarver

History

PSS Team Members have been contributors in R&D and Information Technology with organizations such as:

- Sovereign Bank
- Bank of America
- BNY Mellon
- Barclays Capital
- New Jersey Institute of Technology
- National Science Foundation
- The CatholicNet
- United Parcel Service
- AT&T
- DARPA

The team represents over 45 cumulative years in IT Research and 70 years in the Development Arena.

Collaborators

PSS has formed relationships and teaming arrangements with Academia and Corporate partners that synergise with ProvenSecure research projects, product development and overall mission.

Clarkson University -

[Dr. Adom Giffon](#) , *Assistant Professor Mathematics & Computer Science*

[Dr. Joseph Skufca](#) , *Associate Professor Mathematics & Computer Science*

New Jersey Institute of Technology -

[Dr. Murray Turoff](#) , *Distinguished Professor, Emeritus*

[Dr. Starr Roxanne Hiltz](#) , *Distinguished Professor, Emerita*

[Elaine B. Kerr](#) , *Distinguished Researcher and Author*

Other Collaborators

Xanthus Inc. MediaNow Inc. SpringVentures LLC. HyperionGray LLC. EIES.org. MetroMSP LLC. ScarvNet Systems LLC. Mega AS Consulting Ltd. Passfaces Corp. Authentify Inc. IP Advisor: Jason Nardiello

The PSS Advantage

1. Diversified (holistic, decentralized, collaborative) Threat Management is the PSS philosophy and approach to cybersecurity.
2. Infusing TRUST throughout the process of interacting with the cyber medium enables trust networks. This is a process that leads to a safe and secure Cyber Society.
3. By embracing a new paradigm for securing a Trustworthy Cyber Community, complexity becomes the PSS advantage. The PSS approach thrives on complexity by leveraging practical methods of deploying advanced Machine intelligence.
