

## **FOR IMMEDIATE RELEASE**

### **Water Filters Provider WaterFilters.NET A Top Job Creator In Minnesota**

*Job growth helps online water filters and filtration systems provider achieve 2013 Inc. Hire Power Award*

Zumbrota, MN October 29, 2013 <http://www.WaterFilters.NET> – WaterFilters.NET, the online consumer's first choice in water filters and whole house water filtration systems, announces its [2013 Inc. Hire Power Award](#). With this award, WaterFilters.NET achieves recognition as a top job creator in its home state of Minnesota.

Founded in 2002 by CEO Jamin Arvig, WaterFilters.NET was established early on as a company that would focus on providing clean drinking water for customers and contacts throughout the world. For Arvig, achieving the mission he envisioned for WaterFilters.NET meant focusing equally on those that needed drinking water filters as it did on those that needed clean drinking water. To achieve this mission he set forth, Arvig knew that the WaterFilters.NET team would need to grow in both passion and in numbers.

“Over the years, our company has been lucky enough to receive significant recognition for the work that we do throughout the world,” states Arvig. “But to win an Inc. Hire Power Award, and to be recognized as a top job creator, may just be one of our more special achievements.”

The unique mission of WaterFilters.NET can be seen reflected in the awards it has been recognized for centered on both culture and commerce, including one of the 15 Best Places to Work in Southeast Minnesota (awarded by Rochester, MN-based non-profit Workforce Development, Inc.) and as a five time Inc. 5000 honoree. The mission of WaterFilters.NET can also be seen reflected in the percentage of profits from every [water filters sale that it contributes to water-based charities](#) and organizations, including charity: water. Every sale made, award achieved or dollar donated by WaterFilters.NET depends on the rapid growth of its internal team.

“Quite simply, WaterFilters.NET cannot achieve its mission of providing clean drinking water throughout the world unless we are able to grow and bring the right team members into the fold at home,” continues Arvig. “Winning the Inc. Hire Power Award, and being recognized as a top job creator this year, will remain special as it represents an absolutely incredible indicator of how far we've been able to come in the pursuit of our global mission.”

Learn more about WaterFilters.NET, and how their commitment to providing clean drinking water throughout the world has helped them grow into one of Minnesota's top job creators, by reading the post, ‘Your Water Filters Purchases Help Create Jobs,’ at the link below:
