#### Overview

Founded in 1993 by a former J.D. Edwards employee, Mitchell & Associates (MAA) has grown to become a global provider of Information Technology solutions, and is dedicated to the provision of superior services across all industries to the J.D. Edwards install base.

MAA has built a sizeable consulting group with a comprehensive array of services. We have skills covering the whole project lifecycle from initial analysis to implementation and support, plus the technical expertise to build end-to-end solutions.

In line with our pervasive pursuit of perfection, MAA has a earned an excellent reputation for quality, a 100% client satisfaction rating, and a proven track record for success when it comes to J.D. Edwards implementations, upgrades, and support. Not many companies can say that!

## Differentiation

We at MAA understand that IT investments need to be aligned with corporate strategies. Our client's requirements are diverse and we have to be flexible but focused. We guide, but do not dictate methods and practices to our clients, including our:

- Ability to provide end-to-end solutions
- Highly diverse level of business, industry, and technical expertise.
- Pragmatists who use a flexible but proven project management methodology.
- Ability to select the correct technology and approach to maximize on the benefit of the solution.
- Strong belief in empowerment and two way knowledge transfer with client staff.
- Detailed, practical, real world financial and business knowledge.
- Deliver what is promised at a value
- Exceed the clients expectations
