01 INTRODUCING KHORA IMAGE

Do you have a photograph that you love? Maybe it's your idol, artwork, puppy, newborn, or family. What if you could turn those images into a three dimensional piece of artwork? Well now you can!

Khora Image is the first platform that allows you to share your favorite images as three dimensional pieces of art. Using digital fabrication (similar to a 3D printing), Khora Image gives your favorite images dimension and shape.

It's simple to use, and our online interface makes the possibilities endless.

O2 HOW IT WORKS

Our process enhances the small by turning a snapshot into a masterpiece. Our interface makes it easy to customize and design your Khora Image. Your design is made using our CNC, a computer controlled drill, in a process we like to call "subtractive printing".

03 CHOOSE YOUR SIZE

The size of your piece is chosen through your pledge.

SMALL
15" x 15"

MEDIUM
24" x 36"

LARGE
48" x 48"

04 CHOOSE A RESOLUTION

Make your image realistic or abstract by adjusting the resolution setting.
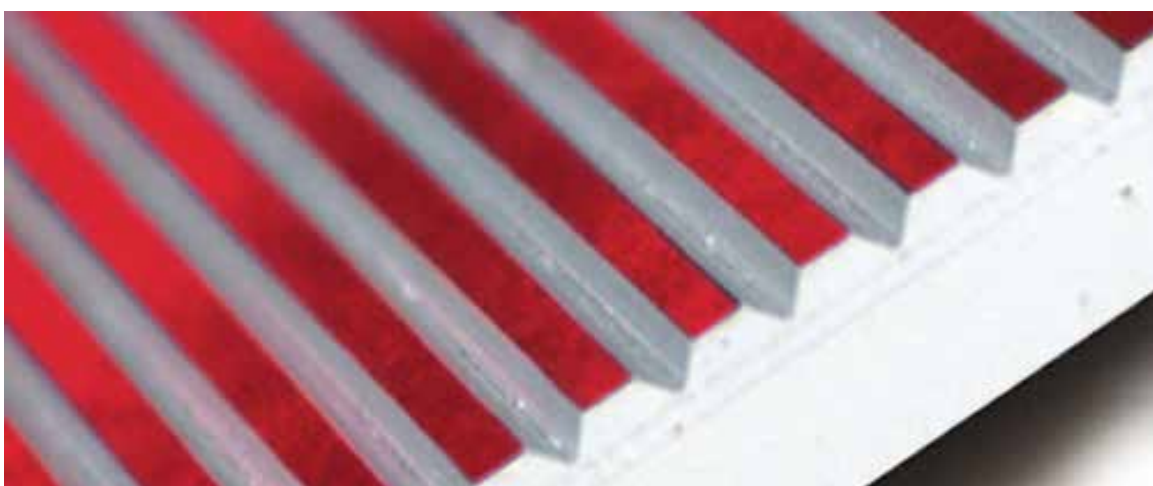

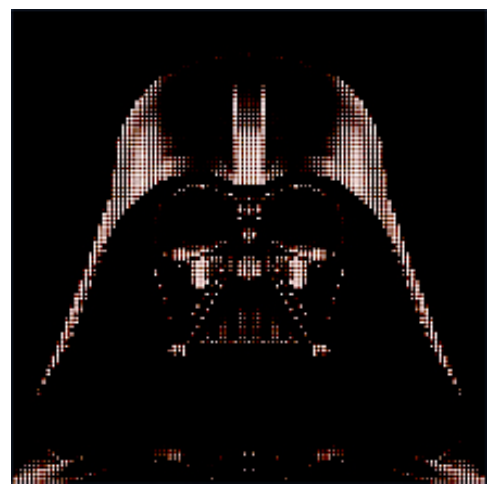

05 CHOOSE A PATTERN

You can choose from a series of patterns to process and personalize your photo.

**VERTICAL STRIPES**

DOT PATTERN

HORIZONTAL STRIPES

06 CHOOSE A COLOR

Our canvases are made of sustainable recycled boards and are painted in 5 colors.

07 WHY?

People have an innate desire to turn moments into art, whether it be cave paintings of Lascaux or Andy Wharhol's Maryliln Monroe. With Khora Image, we've created a way for anyone to turn captured moments into original artworks that are both highly dimensional and graphically unique.

Whether you're an artist wanting a new way to print your art, a fan of digital fabrication, or someone looking for the perfect gift, Khora Image is ready to help make your photographs and memories come alive on a new scale. We can't wait to see what you create using Khora Image.
