

SkinPen™ features the most advanced microneedle cartridge on the market.

.....

The unique features of our new SkinPen microneedle cartridge enhance the experience and optimize results for the patient. Bellus Medical is committed to bringing the most advanced technology to the market.

Bio-Sleeve eliminates cross-contamination by preventing fluids from leaking beyond the microneedle cartridge, preserving the integrity of the SkinPen.

Exhaust port prevents suction and reduces risk of broken capillaries.

12 medical-grade 32-gauge needles minimize epidermal destruction while creating over 1400 microchannels per second.

.....

Why SkinPen by Bellus Medical? Superior products. Superior service. Your true practice partner. Join the SkinPen Revolution today!
