

The Best Darn Floor Tape – Ever!

BestTape™

exclusively from 5S Supply

Why is BestTape the best darn floor tape?

Best design. Best durability. Best installation and removal. Best maintenance. Best price!

Best Design

BestTape is designed to be the best. It has a beveled edge, a round surface, and adhesive that goes closer to the edge. Available in three widths 2", 3", and 4" and in seven colors: red, orange, yellow, green, blue, black and white.

Best Durability

Because of its ability to withstand most heavy traffic it will last longer than other low cost tapes. It has a beveled edge that withstands forklift traffic, a round smooth surface for easy cleaning, and adhesive that goes closer to the edge for a better bond. BestTape will last longer than standard vinyl floor tape.

Best Installation and Removal

Easy installation – clean the floor surface, peel and stick. It stays put until you need to remove it. Removal is a breeze, just pull straight up from one end and peel back. A good Lean organization tends to change layouts and BestTape will save you hours of clean-up from other low cost tapes. The adhesive peels off the floor easily so there is no time wasted scraping.

Best Maintenance

Because of its smooth surface, it is much easier to clean than other “bumpy” surface tapes. Because of its durability you don’t waste time replacing or repairing ripped up tape.

Best of all – Best Price

Compared with other floor tapes with “similar” qualities BestTape offers the best value and lower price. Contrast other brands at \$85 per roll to BestTape’s \$70 per roll, that’s almost a 20% savings! Judged against standard vinyl tape BestTape is a much greater value. Replacing or repairing standard vinyl tape can be a hassle and is unproductive time trying to scrape up the messy adhesive left behind. Using BestTape you can save dozens of man-hours repairing and replacing tape. See a return on your investment in as little as two to three months.

The Best Darn Floor Tape – Ever!

Technical Information

Material Thickness	100% virgin, wear-resistant industrial grade PVC with 35 mil height to ensure the highest strength and toughness.
Beveled Edge	Two stage taper and fully round top surface to create smooth transition edges that minimize impact hazards.
Recessed Base	Two stage recessed bottom surface to create zero gap between the floor and the edge of the tape.
Surface Finish	Smooth gloss finish for extra durability and ease of cleaning.
Adhesive	Extremely durable double-sided adhesive.
Installation	Simple and easy peel-&-stick installation. No dry time, cure time, fumes or messy cleanup to limit productivity.
Removal	Easily removable, just peel with no sticky residue left on the floor. The tape stays put until you remove it.

Adhesive Info

Adhesive Type	Synthetic Rubber
Adhesive Tape Material	Cloth
Adhesive Tape Color	White
Adhesive Tape Thickness	0.28 mm
Liner Material	Off-white paper
Liner Thickness	0.08 mm
Peel strength	14 N/25 mm
Tensile strength	80 N/25 mm
Application Temperature	40F to 90F
Service Temperature	0F to 130F

Beveled edge and Fully round surface

Two stage recessed base

Why BesTape?

BesTape is the most durable and effective Floor Marking System.

- **Unique Profile:** the Best engineering design and simulation software is used to deliver the Best profile that withstands forklift traffic without tearing or lifting.
- **Easy to Use:** It has the most efficient application system – remove the backing and apply.
- **Cure Time:** There is no cure time unlike other aisle marking systems - have the markings you want with no waiting time to continue work.
- **Temperature:** BesTape will perform well in low temperatures without failure.
- **Warranty:** 2 year warranty on BesTape Floor Marking System.
- **Cost:** A cost effective, most efficient and viable alternative to other floor tape.
