## Game Play & Features

*Zombie Combat* includes **5 stages** illustrated by an old plot but still remain its cutting edge in a zombie game.

**Controls:** Similar to other "runner" games, the control button of *Zombie Combat* is quite simple. The player taps to the left to jump, tap to the right to shoot. It will be much more effective if the player taps the target precisely. Moreover, the player can use 3 buttons placed in the bottom of the screen to change between guns. A "Pause" opens a popup to select mute, on/off music, replay or exit.

**Weapons:** In *Zombie Combat*, guns are regular weapon of the player. There are 6 types of gun whose power ranges from weak to strongest for the player to choose:

- **Pistol:** is the weakest but it will never run out of bullet and if it is upgraded to its full power (max level), it shouldn't be neglected;
- **Spread Shot:** fires 3 bullets at a time;
- **Rifle:** can fire continuously at its medium power;
- **Flame gun:** offer higher damage and in wide range;
- **Laser gun:** quick way to wipe out allies at the same direction;
- **Bazooka:** shooting rockets - the strongest one.

In each stage, the player can bring 3 types of gun among which Pistol is the default. In term of defense, the game allows the player to carry pets which can have some special abilities, such as lowering zombies attack or recovering HP to the player. Another difference that can be named in *Zombie Combat* from the other ordinary "runner" games is Bosses. To pass over a stage, the player will have to fight against a powerful boss, therefore, the player must use his weapons wisely from the beginning to save bullets for the special guns in order to kill the boss easier.

**Extra Features:** The player will use coins to unlock and upgrade powerful guns and pets. Coins can be collected along the journey or by killing zombies. The player can also use cash/ credit card to buy coins.
