

# Are YOU exposed to the harmful effects of Benzene?

Shawcity introduce an innovative new concept to protect all workers from Benzene exposure.

Cub<sup>TAC</sup> is worn by all personnel on-site to continuously monitor for total Aromatic Compounds (TAC), including Benzene.

Only when the Cub<sup>TAC</sup> alarms, a Tiger Select is then used to verify the presence of Benzene.

Cub<sup>TAC</sup> + Tiger Select: 2 instruments, 1 solution = the most accurate and reliable benzene monitoring available

## Receive a FREE Cub<sup>TAC</sup> with your first order

On all first orders placed on either Cub<sup>TAC</sup> or Tiger Select we will give you a CUB<sup>TAC</sup> absolutely free\*. Quote CTAC on ordering.

## 25% off a Tiger Select instrument

Return your existing benzene monitor to us and we will give you 25% off a Tiger Select instrument. Quote TS25 on ordering.

## Try Before you Buy

Hire the Tiger Select for 1 month and receive the hire cost back should you purchase the monitor.

**Hurry, offer ends December 2013! \*Terms and conditions apply.**
