|------------|-------------------------------------------------------------------------------------|------------|--------------------------------------------------------------|
| 244        | Invacare platinum 5 oxygen concentrator                                             | 286        | Mallinckrodt ready box media warmer                          |
| 245        | Invacare platinum 5 oxygen concentrator                                             | 287        | Boekel media warmer                                          |
| 246        | Invacare platinum 5 oxygen concentrator                                             | 288        | Coagucheck S analyzer                                        |
| 247        | Invacare platinum 5 oxygen concentrator                                             | 289        | Clay Adams autocrit ultra 3 centrifuge                       |
| 248        | Invacare platinum 5 oxygen concentrator                                             | 290        | Clay Adams compact centrifuge                                |
| 249        | Invacare platinum 5 oxygen concentrator                                             | 291        | Damon/IEC micro hematocrit centrifuge                        |
| 250        | Invacare platinum 5 oxygen concentrator                                             | 292        | Meiji lab microscope                                         |
| 251        | Invacare platinum 5 oxygen concentrator                                             | 293        | Meiji lab microscope                                         |
| 252        | Invacare platinum 5 oxygen concentrator                                             | 294        | Meiji lab microscope                                         |
| 253        | Invacare platinum 5 oxygen concentrator                                             | 295        | Meiji lab microscope                                         |
| 254        | Invacare platinum 5 oxygen concentrator                                             | 296        | Meiji lab microscope                                         |
| 255        | Invacare platinum 5 oxygen concentrator                                             | 297        | Meiji lab microscope                                         |
| 256        | Invacare platinum 5 oxygen concentrator                                             | 298        | Meiji lab microscope                                         |
| 257        | Invacare platinum 5 oxygen concentrator                                             | 299        | Meiji lab microscope                                         |
| 258        | Invacare platinum 5 oxygen concentrator                                             | 300        | Meiji lab microscope                                         |
| 259        | Invacare platinum 5 oxygen concentrator                                             | 301        | Meiji lab microscope                                         |
| 260        | Invacare platinum 5 oxygen concentrator                                             | 302        | Meiji lab microscope                                         |
| 261        | Invacare platinum 5 oxygen concentrator                                             | 303        | Meiji lab microscope                                         |
| 262        | Devilbiss 515ads oxygen concentrator                                                | 304        | Meiji lab microscope                                         |
| 263        | Devilbiss 515ads oxygen concentrator                                                | 305        | Meiji lab microscope binocular                               |
| 264        | Devilbiss 515ads oxygen concentrator                                                | 306        | Meiji lab microscope binocular                               |
| 265        | Devilbiss 515ads oxygen concentrator                                                | 307        | Meiji lab microscope binocular                               |
| 266        | Devilbiss 515ads oxygen concentrator                                                | 308        | Southland Instruments foi-150 lab microscope control console |
| 267        | Devilbiss 515ads oxygen concentrator                                                | 309        | Southland Instruments foi-150 lab microscope control console |
| 268        | Devilbiss 515ads oxygen concentrator                                                | 310        | Southland Instruments foi-150 lab microscope control console |
| 269        | Devilbiss 515ads oxygen concentrator                                                | 311        | Southland Instruments foi-150 lab microscope control console |
| 270        | Devilbiss 515ads oxygen concentrator                                                | 312        | Southland Instruments foi-150 lab microscope control console |
| 271        | Devilbiss 515ads oxygen concentrator                                                | 313        | Southland Instruments foi-150 lab microscope control console |
| 272        | Devilbiss 515ads oxygen concentrator                                                | 314        | Southland Instruments foi-150 lab microscope control console |
| 273        | Devilbiss 515ads oxygen concentrator                                                | 315        | Southland Instruments foi-150 lab microscope control console |
| 274        | Rosys Plato 3101 SI Robotic handler(microplate liquid handler and sample processor) | 316        | Southland Instruments foi-150 lab microscope control console |
| 275        | Ventana benchmark LT histology slide staining system                                | 317        | Southland Instruments foi-150 lab microscope control console |
| 276        | Sakura 4703C tissue-tek cryo 2000 microtome/cryotome                                | 318        | Fresenius 2008H dialysis system                              |
| 277        | Sysmex uf-100i urineanalysis system with accessories                                | 319        | Fresenius 2008H dialysis system                              |
| 278        | Siemens advia centaur immunoassay system                                            | 320        | Fresenius 2008H dialysis system                              |
| 279        | Diagnostica Stago sta compact coagulation analyzer                                  | 321        | GE millennium water and process system                       |
| 280        | Diagnostica Stago sta compact coagulation analyzer                                  | 322        | GE millennium water and process system                       |
| 281        | Forma Scientific 3603 platelet incubator                                            | 323        | Zyzatech water filtration system                             |
| 282        | Mallinckrodt ready box media warmer                                                 |            |                                                              |
| 283        | Mallinckrodt ready box media warmer                                                 |            |                                                              |
| 284        | Mallinckrodt ready box media warmer                                                 |            |                                                              |
