

Developed by Bobby Rio and Date Hotter Girls author Rob, Magnetic Messaging that promises to provide all the answers to the dating game unraveling through text messages has caught the attention of GentlemensUniversity.com's Stan Stevenson, prompting an investigative review.

"Magnetic Messaging is a guide that promises to deliver information about texting and how these messages can be used to make women more interested in one's advances," reports Stevenson. "In a nutshell, Magnetic Messaging is a beginner's guide to any and everything related to dating through text messaging. It offers various tools, advice, and tips that can help a user communicate with women he is interested in with confidence, all the while making the woman feel excited and eager to meet up. It retails for \$47, with several unadvertised bonuses available to those who purchase the guide."

The Magnetic Messaging review shows it is divided into several sections, with each offering tips and advice on different situations where texting the right messages can make the most impact to a woman. The guide also discusses the importance of customizing text messages to suit their own needs depending on the type of woman they want to start a connection with. There is also a section in the guide that gives emphasis on being as true to oneself as possible, meaning that the tone of the text messages being sent to a woman that a user is interested in should be the same tone that he uses in face-to-face conversations, which allows the receiver of the text message to see it as an honest reflection of the guy wooing her.

"The biggest advantage to Magnetic Messaging is its simplicity. It is a guide that is very easy to follow and quite easy to read. Aside from this, everything that a beginner needs to survive in the world of dating through text is presented in a clear manner," says Stevenson. "The guide is also packed with information and advice that one can really use in real-life. It is also great for those who already have experience with women and texting as there are many great "done-for-you" texts that will work for anyone. There are also some reports and other bonuses that Rob and Bobby created themselves, with a majority of them teaching one how to enjoy and conquer the texting and dating world."

"Magnetic Messaging is a unique guide to texting and dating women for those who have no clue as to how to start communicating with women through text. It is a comprehensive guide that provides excellent information to users. Even those who have enough experience in the matter can polish their skills and add to their knowledge. Considering that other dating and texting guides cost more, the price also makes it very appealing. I recommend Magnetic Messaging for anyone who wants to step up their text game."
