WE RELY ON DEALERS LIKE YOU!

# WELCOME

We are glad to provide our online training program to bring you up-to-speed quickly and thoroughly. You can access the training on our dealer Website.

Once you login, you'll find all the information you need to succeed with KPI-JCI products. It gives insight into who we are, how our products work, and how we can help you.

The training covers the steps in your customers processes and explains the products and services we provide to support these, and you. The categories and related equipment you'll learn about is:

- **CRUSHING**
- **SCREENING**
- **WASHING & CLASSIFYING**
- **MATERIAL HANDLING**
- **TRACK MOUNTING**

We also review our services, parts and marketing components that back your business every day.

You are encouraged to review every module in this training before scheduling a class. You don't need to take them in a particular order – you just need to complete and pass all of the modules. If you need to stop a module review part way through, you will automatically be returned to the point where you left off when you log back in.

We are here to help you succeed. And our online training module has been designed as a convenient first step.

We rely on dealers like you, and are here to support you every step of the way!
