

# Turn-key Cloud Document Management

### Accelerate Time-to-Market

Save yourself the time and expense of building or buying an online document management solution. DocLanding offers an OEM product that lets you deliver affordable cloud storage to your customers quickly and easily.

Add value without adding expense.

## **Access Anywhere**

Cloud computing is all about mobility.

- DocLanding provides anytime, anywhere access through a robust web-based portal that includes controlled collaboration.
- DocLanding Sync and Desktop applications for the PC allow for seamless workflow integration.
- iPhone and iPad apps offer "on the go" file access. Users can also snap pictures on their Apple device and send it straight to cloud storage.
- Email functionality lets users send files directly into their cloud account.

## **Extend Your Brand**

Place your company logo throughout the user environment to leverage your existing relationship with clients and increase adoption rates. This includes a custom landing page, web interface and Desktop application.

# Integrate

DocLanding's API makes it easier to integrate online document management with existing applications or build your own application that incorporates cloud store, search and share functionality:

- · Get Items / Content / Cabinet
- Add File and Folder
- Search
- Share
- · Read / Update / Delete

At DocLanding, we've proven the strength of the API by using it in building our own applications. Test drive our web, desktop and mobile tools to explore the productivity potential we can add to your project.

# Migrate Data and Back Scan

Make a deeper connection with customers by migrating their data from existing storage and back scanning paper document archives.

When clients are liberated from the expense of in-house server maintenance, and regain valuable office space once monopolized by stacks of file boxes and rows of cabinets, they quickly recognize the value you add to their business.

#### Company

DocLanding is a cost-effective online storage solution ideally suited for small business, individual users and enterprise clients. Store, search and share digital documents using a powerful suite of desktop and mobile tools to enhance your existing workflow. Founded in 2008, DocLanding is a privately held company based in Omaha, NE.
