

**FOR IMMEDIATE RELEASE**

## Carroll County Chamber of Commerce Awards Sonata Venture Solutions 2013 Small Business Achievement Award

**Westminster, MD: November 20, 2013** – On November 7, 2013, [Sonata Venture Solutions, LLC](#), a strategic, results-centric marketing, branding and public relations firm, was honored for its business achievements at this year's annual Carroll County Chamber of Commerce and Carroll County Department of Economic Development awards ceremony.

Sonata Venture Solutions focuses on helping small to mid-sized companies grow through strategic planning and tactical execution. The company was founded by Laura Meck, a long time marketing and sales leader in the hospitality industry. Author, mentor, business owner, and serial entrepreneur, Laura delivers leadership and working knowledge through The Launchbox® self-paced book, workshops and programs.

“Both our service and product offerings have seen diverse industry interest. We have annual contracts with clients in hospitality [suppliers and vendors], retail, insurance, finance, agriculture, construction, real-estate, and government,” shared Laura Meck, CEO Sonata Venture Solutions.

“I believe our success is based on the team of resources we have been fortunate enough to bring together. Everyone is like-minded and has a strong desire to help companies and organizations grow. We take working with our clients seriously and become an extension of their organizations. Not all companies have the resources, or need for a full-time in-house Marketing Director, VP or CMO. Selecting a company like Sonata Venture Solutions has allowed our clients to benefit from tenured experience and expertise without the added FTE on-staff overhead” Meck went on to say.

“Sonata Venture brings years of experience in Public Relations, Marketing, Social Media, Partnerships, Branding and more,” shared Mike McMullin, President [Carroll County Chamber of Commerce](#). “Sonata Venture Solutions has a solid understanding of both national and international growth requirements, and their drive to get in front of the right people continues to prove their abilities. We are pleased to have them headquartered in our community” McMullin continued.

“There are some opportunities that present themselves and you know it is something you are compelled to do. Sonata has thrived with its headquarters in Westminster and satellite offices in Arlington VA and Baltimore MD. The available resources and culture truly lends itself to expansion. Through hard-work, commitment to excellence and customer centric service, we see a very bright future for small business owners and entrepreneurs” Laura shared.
