AvaLAN Wireless receives Innovation Leader award from the Economic Development Partnership of Alabama

Huntsville, AL., November 18th, 2013 – AvaLAN Wireless Systems, Inc. was recognized as an Innovation Leader at the 3rd Annual Alabama Launchpad Innovation & Entrepreneurship Conference. We received one of 82 awards to recognize and celebrate the state's start-ups, angel investors, researchers, incubators and entities that patent their inventions for collectively creating thousands of high wage jobs for Alabama.

“We are honored to be recognized as an innovation leader and contributor to Alabama’s economic growth,” said Matt Nelson, CEO and President of AvaLAN Wireless Systems, Inc.

Alabama Launchpad is a program of the Economic Development Partnership of Alabama Foundation. The EDPA Foundation partners with seven research universities in Alabama to promote and reward high-growth, innovative start-ups from across the state. The program is for new, innovative ventures in the seed or early-growth stages and for existing businesses moving into a new high-growth market.

About AvaLAN Wireless Systems, Inc.

AvaLAN Wireless is an industry leading developer and manufacturer of long range industrial wireless radios and cryptographic technology. AvaLAN’s products are designed to enable affordable secure wireless connections in perimeter or remote locations that require long range, interference immunity, superior reliability and uncompromising data security. AvaLAN has grown each year since 2004 and has shipped over 50,000 radios to the networking, surveillance, digital signage, robotics, industrial automation and access control markets. Specializing in Cellular and the unlicensed 900MHz, 2.4GHz and 5.8GHz radio bands, AvaLAN offers a family of encrypted wireless Ethernet and data communications products. We believe our "Secure Products for a Connected Planet" offer unmatched price-performance values and are proudly engineered, supported and made in the USA and Canada.
