

Hand crafted Insulated drink cup holders for children.
Inventor Diana Dinges seeks Kickstarter supporters for produc-

Diana Dinges with her children Audrey and Brecken (AKA Buster).

Dinges, a sales professional for a Fortune 500 company, has spent the last two years creating the ZooMoos insulated cup holder. Her idea sprang from her daughter Audrey's love of chocolate milk when she was a toddler. Dinges wanted to keep the milk cold so put a Koozie around the sippy cup. Figuring that wasn't fun or safe, she invested time, treasure and talent into ZooMoos.

The ZooMoos Kickstarter campaign to raise \$20,000 and fund production closes Dec. 6.
