At all other times during this promotion a discount of 60% shall be available. Both these discounts are available on all shared, reseller, vps & dedicated web hosting.

Hostgator has recorded its highest sales during the Black Friday promotions & the trend continues to grow considering the demand for their service. They launched operations in 2002 & was founded by Brent Oxley. EIG acquired Hostgator in 2012 & since then has been ramping up its operations. Hostgator currently has over 300,000 customers & over a million domains hosted. They recently started their operations in India & Brazil.

Hostgator recently came under fire when they suddenly developed issue with some of their servers, but were quick to address their customer concerns & the websites were back soon. Customer support is considered essential in this business.

Hostgator said this was their biggest sale of the year, much higher than 50% offered before. Similar to other large online merchants who issue heavy discounts for customer acquisition & increasing sales, Hostgator has successfully carried out its Black Friday Promotions.

All these offers can be availed here: Hostgator Black Friday to Cyber Monday Sales - <http://hostgatorvoucher.info>
