Clearwayz™

Total Sinus and Immune Support

@CLEARWAYZ

www.facebook.com/Clearwayz

www.clearwayz.com

Clearwayz supports healthy sinus and immune function. The ingredients in **Clearwayz** have been carefully selected based on their history of safety and efficacy for supporting the body's natural processes that help reduce inflammation, sinus congestion and an overactive immune response.

Clearwayz uses **Targeted Cellular Technology™**, a patented five phase process, that maximizes the cellular absorption of milligram amounts of amino acids and botanicals which help support healthy sinus and immune activity.

Key Ingredients

Grape Seed Extract Potent antioxidant with antiallergenic, antihistamine, anti-inflammatory and immune boosting properties. Supports the processes that improve circulation and reduce sinus swelling.

L-Arginine Non-essential amino acid which promotes the production of nitric oxide, a neurotransmitter that can help reduce inflammation and increase blood flow.

Choline Bitartrate Essential nutrient which is converted to the neurotransmitter acetylcholine (Ach), a neurotransmitter which helps the brain communicate with the immune response and acts as an off switch to an overactive immune response.

Supplement Facts

Serving Size: 1 Capsule

Amount Per Serving	% Daily Value
Proprietary Blend containing:	508mg *
