

Clarity eBallot Delivery

Enables voters to receive their ballots electronically and their marked ballots by postal mail, fax, or secure online upload.

Clarity eBallot Delivery is an innovative product which allows for secure ballot delivery to remote voters increasing participation and efficiency. After completing absentee ballot requests, voters receive their ballots electronically and are then able to return the marked ballots through mail, fax, email or upload through a secure online interface.

Ballots can be marked on-screen through a secure marking utility that prevents common errors such as over-voting or under-voting. Users also have the option to print the ballots and mark them by hand. Voters can track the status of their ballots through custom voter receipts.

- ▶ Ballot return made easy with real-time ballot information.
- ▶ Eliminate absentee ballot remaking with improved workflow and support.
- ▶ Easy to use on-screen marking with detailed information for ballot return.
- ▶ Voter privacy, data masking, ballot choice & absentee data barcodes.

I am very pleased to ensure that our deployed military and overseas citizens have a faster option when it comes to how they receive their absentee ballot. It has always been a priority of mine to make the voting process more accessible for military and overseas citizens, and safe and secure online ballot delivery is one of the ways we are doing that."

Natalie E. Tennant,
Secretary of State,
West Virginia, USA.

Clarity e-Election Platform

A solution for every election phase

Pre-Election

SOE solutions assist election administrators with the planning, organizing and training activities that accelerate as each new Election Day approaches. With a wide variety of software solutions, SOE provides efficiencies built specifically for elections and the officials that conduct them.

Election Day

During Election Day, the most critical period of the election cycle, any number of issues can arise. Through our voting and help desk solutions, election officials can rest assured that the most robust and user-friendly tools are being utilized. Whether in-person or remotely, voters will experience a state-of-the-art interface to cast their ballot and the resources to identify and answer questions.

Post-Election

After Election Day, work is far from over. This is where some of the most important steps take place to ensure accuracy and effectiveness of the voting system, aggregate and present election results for public consumption, and use the information learned from this election to make the next one even better.

Take your next steps in Election Modernization with the experts. Visit us on www.software.com or email us on contactus@software.com
