

Infor PLM Discrete

Get new capabilities with Infor 10x

Take advantage of technologies that can change the way you work with Infor® PLM Discrete and Infor 10x, the latest release of Infor's innovative technology. With new capabilities in the areas of social business, mobility, analytics, and integration, you'll be able to extend the value of Infor PLM Discrete internally and collaborate more closely with external partners and suppliers.

Experience the new Infor PLM Discrete

With Infor 10x, Infor PLM Discrete gets a completely enhanced look and feel that provides a consumer grade user experience and allows you to take advantage of expanded industry-specific capabilities, make better decisions faster, and work more efficiently. Infor 10x extends Infor PLM Discrete in a number of key ways, including:

- **A new consumer-grade user interface** that give users a flexible, easy-to-use environment designed to increase productivity, help employees find information quickly and easily, and even have data delivered automatically to them. Once you experience it, you won't be able to imagine how you ever worked without it.
- **Workspace adoption** that allows for collaborative product development and gives you automatic delivery of in-context business intelligence (or relevant business data displayed as tasks are in process) to improve and speed decision making, as well as single sign-on capabilities.
- **Expanded industry functionality** that gives you compelling, out-of-the-box functionality, including engineering change management and configuration management. You can work more efficiently, improve product quality, increase product development efficiency, and reduce both time to market and product costs.

Infor 10x represents the evolution of our technology platform, which features purpose-built middleware, as well as social, mobile, analytics, and cloud solutions.

- **Integrated social networking** that you can use inside your organization to improve the speed, scale, and value of interactions between your employees—dramatically changing the way they work with information, systems, and each other. With Infor PLM Discrete, you get a unified social networking platform that lets you connect with colleagues in public or private communities and securely share information, content, and conversations. Easily tap into the knowledge and expertise of others across departments, geographies, and time zones to make decisions more quickly and with greater confidence.
- **Expanded Infor ION integrations** that allow for fast, seamless, easy integration to both Infor and third-party applications, including CAD systems. The deep integration to ERP and CAD systems allows you to streamline even your most complicated processes for developing, launching, and managing products. You'll be able to get your products to market more quickly, improve design efficiency, and lower the cost of new product introductions. New integrations are now available for Infor LN, Infor SyteLine, Infor M3, and Infor VISUAL.

With Infor PLM Discrete, you can streamline even your most complicated processes for developing, launching, and managing products. Increase the value of your solution and make the most of your maintenance investment by upgrading to the latest release of Infor PLM Discrete. You'll make better decisions faster, collaborate more effectively, shorten cycle times for changes and approvals, minimize scrap and rework, and take your productivity to new heights.

10x core features

Product management

- Item master
- BOM master
- Master data for vendors

Change management

- Workflow and routing for approval
- Revision control

Life cycle analysis

- Retrieve data from ERP
- Compare cost and other attributes

Partner Net

- Collaborate with suppliers/partners

CAD integration

- AutoCAD, SolidWorks, Inventor, Pro/E
- Catia, Solid Edge, Unigraphics
- Integrated CAD file viewer/markup

Web use interface

- Intelligent colors
- Drag and drop
- Work area and personalization

ERP integration

- LN/BAAN
- SyteLine
- VISUAL
- M3 (planned)
- BODs—published per Infor standards

Document management

- Secure Document Vault
- Check in and check out
- Version control
- Authority

Licensing

- DESIGN: Heavy users
- CONTRIBUTOR: View, casual users

10x common component adoption

Integrations

- BAAN/LN
- SyteLine
- VISUAL
- M3 (planned)
- Publish BODs

New localizations

- Language support
 - English
 - Japanese
 - Chinese (Simplified)
 - French
 - German
 - Spanish
 - Portuguese

Industry specialization

- Automotive
- Aerospace
- High Tech & Electronics
- Industrial Manufacturing
