

Wellness Education Cannabis Advocates of Nevada Achieves 501 (c) Non-Profit Status

FOR RELEASE: December 1, 2013

Media Contact: JenS@WeCan.org

WeCan is a Non-Profit Medical Cannabis Advocacy Social Group serving the Las Vegas community with patient meetings for the past 5 years.

Organized to help patients who under the established laws had no safe access to their legal medication, WeCan approached the Nevada State Legislature and pushed for safe access.

WeCan spreads awareness via community involvement with events such as the Downtown Halloween Parade 2013, First Fridays, in Carson City, and at local Coffee Shops.

Coming soon is the establishment of a library, reading room and patient outreach.

WeCan holds a symposium for parties interested in opening a dispensary. After 2 successful informational seminars hosted by Senators Tick Siegerbloom and Mark Hutchenson, as well as Assembly woman Michele Fiore and VonDank Consulting, there are monies to offer for patients free or assisted registry renewals.

The outreach continues with new patient meetings. Membership is free at: www.Meetup.com/WeCan702 .

Patients are offered scholarships to receive their Medical marijuana card.

Interested parties may sign up at: Meetup.com/WeCan702 or by sending requests directly to LeeK@WeCan702.org for consideration.
