

Hypertrophy Max Bonus Released for Vince Delmonte and Ben Pakulski's Hypertrophy Max Workout Program

HypertrophyMaxBonus.com has just released their Hypertrophy Max Bonuses for the upcoming 12 month workout and diet program.

The Hypertrophy MAX bonus package that HypertrophyMAXBonus.com have released is already causing buzz online. The bonus offer that they have released provides those looking to build more muscle and strength with additional bonuses that will help them have even more success with Hypertrophy MAX workout program designed by Vince Del Monte and Ben Pakulski.

"After going through the 12 months of Hypertrophy MAX myself, I realize that the workout program is a complete program that includes workouts, diet plan, supplement recommendations, motivation as well as a community but there are a few things that can add to one's success. I myself have benefited greatly from going through the program and following the advice of a pro fitness model and pro bodybuilder as well as hundreds of other guys as you can see from all the pictures and results," states Stan Stevenson of HypertrophyMAXBonus.com.

The Hypertrophy MAX workout program is delivered each month to member's mailboxes and includes a 12 month 24 page newsletter, 1-2 DVDs, 90 Minute coaching calls, as well as the popular private members' forum plus a few extra bonuses. The forum is a big hit with members because they can post their questions and have responses from people all over the world who have experience or different views that they can learn from, as well as getting answers from Vince and Ben themselves.

The program is only offered every six months, so when the program opens there is always a rush for men and women trying to get into the program. Since Stevenson has already had great success with the program, he is offering additional bonuses to those who join the program through his website HypertrophyMAXBonus.com.

"It was hard to create a bonus package for Hypertrophy Max because Vince and Ben have done such a good job in covering everything one needs to succeed in building more muscle and getting stronger but I think I have put together the best Hypertrophy Max bonus package. Some other guys who are offering bonuses are giving away more workouts or diet plans, which in reality no one needs. Getting these other plans will just be a distraction," states Stevenson.

Stevenson has also put together a comprehensive Hypertrophy Max review which can be found at: <http://hypertrophymax.org/hypertrophy-max-review-2>
