Unbreakable, a dating program that covers confidence issues, helps men dial down their response to anxiety during the approach, and allows men to get past negative experiences quickly and even use them to their advantage later on, has caught the attention of GentlemensUniversity.com's Stan Stevenson, prompting an investigative review.

"Our Unbreakable review shows that it is a dating guide designed to bring out the natural game in you without having to rely on overly technical strategies.," reports Stevenson. "The way that Unbreakable tackles confidence issues rather than trying to transform you into something you're not is certainly refreshing. It's a different approach of discussing many of the concepts that PUA products typically discuss without having to feel all sleazy about it."

Unbreakable consists of video footage from a closed-door seminar covering 9 different modules that include important aspects of dating women. In addition to the video footage, these modules are also available as downloadable mp3 files and PDFs, allowing men to consume the information using whichever way is most convenient for them at any given time. There are a ton of bonuses too. Many of them such as The Breathtaking Hello and Endless Conversations are already complete courses in themselves and can be offered as a separate course if the creators of Unbreakable really wanted to. There are even a few surprise bonuses that are only revealed once users enter the exclusive member's area that they'll want to look out for.

"Unbreakable teaches you some of the actual skills you'll need when you start approaching women. You learn the framework that will be the basis of all interaction you will be making, which comes in handy even if you forget every other skill you've learned from the Unbreakable course," says Stevenson. "The modular structure allows you to just jump straight to a part of the course that you want to learn about, in case you're already familiar with some of the concepts discussed in the other modules."

"Whether you are a dating newbie, or already have a few dating courses under your belt, and want to add the things you can learn in Unbreakable to your arsenal, it is a great dating guide that just about anyone can use. It's a product that addresses confidence issues and also equips you with some fundamental and advanced skills you can employ once you've started interacting with women. On top of all that, you also get access to some pretty cool bonuses that add value to the entire course!"
