On December 20th, CityMD will celebrate the Grand Opening of its new 4,500 square foot state-of-the-art urgent care facility right in the heart of Astoria, Queens. Located at 31-11 Steinway Street, CityMD Astoria will offer the same immediate care to sick, ill or injured Queens' residents that Manhattan residents have been utilizing for years.

"I think it's a great addition to Astoria," says Jason Schmidt, a longtime Astoria resident. "It's a bonus to have a reputable and convenient medical office right in my neighborhood."

Founded in 2010, CityMD has expanded to nine locations throughout Manhattan, Brooklyn and now Queens. While committed to providing immediate healthcare, CityMD combines a strong focus on the patient experience with compassionate care.

"We are very excited about our recent expansions into Brooklyn and Queens. We look forward to becoming a strong contributor to these communities as we continue to provide high quality healthcare to all New Yorkers," says CEO Dr. Richard Park.

CityMD employs expert staff including medical assistants and technicians along with board-certified Physicians who are highly trained in treating a wide variety of illnesses and injuries. CityMD locations are open 365 days a year, welcoming walk-ins for both adult and pediatric care.
