

The primary goal of the analysis was to determine which tech blogs are most interactive both internally and on social media

We examined 5128 blog posts created from 14th to 20th October 2013.

We analysed 2 476 124 interactions related to Top 30 Tech Blogs (according to Technorati.com / 20th of October 2013).

The analysis was created using data collected from Brand24.
