DIGITALSPEC (8a Certified Company) is a performance based organization whose philosophy is fostered through a trusted partnership with clients and employees to assess the needs and, in turn, develop the methods, tools, and techniques to successfully meet their objectives. Our collective knowledge and experience provide leadership and strategic direction within the practice areas offered by DIGITALSPEC. We adapt commercial and in-house proven best practices to deliver a higher level of operational efficiencies and value to our clients. Above all, a continued commitment to customer satisfaction and quality control distinguishes DIGITALSPEC. Since our managing principals stem from large system integrators and known management consulting firms, we have reach-back to deep domain expertise and industry leadership.

DIGITALSPEC is a leading provider of management and systems integration consulting services delivering true business value, innovations, and return on investment leveraging 50 years of combined business and IT experience, deep domain expertise, and rich technical knowledge. Our portfolio of services includes Management Consulting, Acquisition Management, Solution Development and Integration, Infrastructure Management, Information Security and Assurance and ITIL Process Consulting.
