When you order the Career Launcher Package your days of anonymity and low commissions are over - because this package includes everything that Million Dollar Salespersons use for success today, in one low-priced kit. Here's what you get and how it works:

Two Customizable Websites

Customizable Agent Website

The #1 tool today in the age of the Internet-savvy real estate customer is having a professional, easy to update, Customizable Real Estate Agent Website. No successful real estate agents today leave this critical ingredient to their broker, or someone else. You are the brand! We evaluated over a dozen website-builder engines for real estate professionals and found that RealEstateSites.com is by far the best. Normally, you'd pay \$99 to get started but with the Career Launcher Package you can keep that \$99 because set-up is FREE! If you've done any research at all you know that hosting fees for a quality real estate website can be very expensive but not with RealEstateSites.com - monthly hosting starts as low as \$29.99! With your website you'll have the ability to play full-screen slide shows, integrate with Social Media, create instant market reports, view neighborhood information and get data regarding recently sold homes, and choose from the classiest designs in the industry.

Individual Property Listing Website

The #2 tool that you must have is an **Individual Property Listing Website**. Smart real estate agents discovered recently that Google and other search engines will "rank" these sites high, and customers will find them - often more easily than your Broker or Agent site! The normal price for an individual property listing website is \$50 but it is included with your Career Launcher package. You'll use the **Individual Property Listing Website** as bait to reel those prospects in! ListingDomains.com offers a fantastic product that allows you to quickly and easily create Individual Property websites that will quickly produce interest in your listed properties.

When you order RealEstateExpress.com's Career Launcher Package, you will see a new green link on your Personal Homepage that says: [Setup Your Career Launcher Websites](#). From there, you will be given a short form to fill out that will "Create Your Account" with the site building team and prompt them to begin the process of building your websites. That's right, they will actually pre-build the framework for both your custom websites, and contact you in one business day! From there, you can change templates, modify the designs, and customize your sites to your heart's content.

Field of Specialization Designation

In order to win prospects today, you must be able to say "**I am a real estate specialist in something.**" But you don't have to wait years for such a Designation, because after taking a short 3-hour course online at RealEstateExpress.com, you will be **certified as a specialist** in one of three respected areas:

C.F.S. **C.F.S. - Certified Financing Specialist®** Real Estate Professionals with the C.F.S. designation have completed extra studies in the field of real estate financing, have successfully passed the specialist exam in this field of specialization, and are recognized for their expertise in the latest trends in home and property financing.

C.P.S. **C.P.S. - Certified Property Management Specialist®** Real Estate Professionals with the C.P.S. designation have completed extra studies in the field of property management, have successfully passed the specialist exam in this field of specialization, and are recognized for their expertise in comprehensive, efficient property management systems.

C.S.S. **C.S.S. - Certified Seniors Specialist®** Real Estate Professionals with the C.S.S. designation have completed extra studies in the science of serving customers in the age 55+ demographic, have successfully passed the specialist exam in this field of specialization, and are recognized for their expertise in serving this rapidly growing market segment.

C.T.S. **C.T.S. - Certified Technology Specialist®** Real Estate Professionals with the C.T.S. designation have completed extra studies in the field of current and emerging technologies, have successfully passed the specialist exam in this field of specialization, and are recognized for their expertise in leveraging technology in real estate brokerage.

When you order your Career Launcher Package from RealEstateExpress.com **you will be asked which of the three Designations above you prefer.** This Designation will be then included in your package, and will appear on your Personal Homepage under "Designation Courses."

Complete the fast and easy 3-hour course and you will immediately receive: 1. **A letter from the Dean** congratulating you on your successful completion of the field of specialization designation curriculum; 2. **A certification diploma** from the American School of Real Estate suitable for framing; 3. **Rights to use your official Designation** abbreviation behind your name on all business cards, letterhead, and professional correspondence.

"Especially in this economy, being a "Senior Specialist" gives me an advantage over my competition, and it really DOES bring me new clients!"
