

Is your Home Family-Centered?

Advanced House Plans introduces a new collection of plans to help builders and home owners find plans perfect for families by Harrison Staab

Take a mental walk through your home. Think of your routine - coming home from work, getting dinner ready, doing laundry. If you've got kids, I'm sure your list is long and challenging to juggle.

Does the design of your home fit your routine and family lifestyle? Can you keep an eye on the kids while cooking, cleaning, or lounging around the house, even while they are outside? Do you have a hard time keeping your home free of clutter?

Homes today are often beautiful to behold from the outside, but are they as functional and enjoyable when you head inside?

If you are a builder looking to appeal to families with floor plans that will leave an impression with their thoughtful layouts, or a home buyer searching for that perfect house to call home, check out our latest collection of Family Centered plans.

With decades of experience designing custom homes for families in the midwest, we are rolling out new plans (and revisiting some classics) that are beautiful, functional, and cost-effective.

Family Centered Plans

Our Family Centered plans have been specially-designed with families in mind.

"As home designers, we work with hundreds of clients every year," said owner-designer Tom Clark. "We understand what makes a home perfect for families and we wanted to make it easier for builders and home buyers to find plans that are particularly family-centered."

In today's homes most people treat their garage as the main entry to their house. We recognize this trend and design the Mud Room in our Family-Centered plans to take advantage with built-ins to keep your family organized and to keep the clutter out.

If you've got kiddos you know how hard it can be to keep an eye on them during your daily routine. Our Family-Centered plans feature open living spaces and windows to help whether your kids are inside or out.

Having unique spaces to enjoy as a family goes a long way to keeping your family connected. Our Family-Centered plans feature activity-specific rooms for home theaters, golf-simulators, or even just a space to shoot pool or play cards. Many of these plans offer outdoor spaces to enjoy.

Family-Centered Plans:

- Mud rooms to keep the clutter out of the home
- Ample storage spaces
- Well-placed laundry rooms
- Open floor plans
- Outdoor spaces

With all the roles mom has to fill these days, we recognize that special woman in the home needs her own space too! Mom Rooms are just that. A personal office, hobby room, or just a quiet place to retreat - these spaces are great!

There are several other common features of our Family-Centered homes. These plans usually have lots of storage, well-placed and efficient laundry rooms, and large pantries. Stair locations are placed for privacy and security, garages are designed to be multi-functional for entertainment and hobbies. Some of our latest plans have storm shelters built-in.

The Right Home for You

Advanced House Plans' Family Friendly home plans are designed to help families get the most out of their home. With thoughtful consideration to how many families live in their home, we've created some great plans that are sure to impress! Look for the Family Centered logo on our plans and check out the features we think make each uniquely designed with families in mind.

Of course, not all families are the same, and not any plan is right for every clan. If you see a plan that resonates with you, but is missing something that would make it just right, let us know! We can modify any of our plans to meet your specific needs and desires.
