## What's in Saudi Arabia for Your Business

Strategically positioned to deliver diverse investment opportunities for investors, Saudi Arabia offers an encouraging combination of competitive energy costs, established infrastructure, and an aggressively expanding and diversifying economy.

Some business benefits that Saudi Arabia offers include:

- No restrictions on foreign exchange and repatriation of capital and profits
- Stable currency, Saudi Riyal, pegged to US Dollar (1 U.S. dollar = 3.75 riyals)
- KSA is one of the few countries that lets companies carry forward losses indefinitely
- Low labor cost across all industries
- 30% corporate tax cut. 50% cut in port fees on all exports
- Exemption from duties for nine major industries

Whether it's the ability to avoid taxation until you become profitable, or enjoy significantly lower rental fees, there are virtually countless reasons why starting business operations in Saudi Arabia is a good idea.
