Microsoft Partner

Gold Enterprise Resource Planning
Silver Customer Relationship Management

For over ten years, Bond Consulting Services (BCS) has been a leading financial and operational systems provider. BCS utilizes industry-leading applications and proven methodologies to ensure efficient and effective use of technology to solve real business problems. BCS is a Microsoft Gold Competent ERP Partner focused on selling and supporting Microsoft Dynamics® GP, Microsoft Dynamics® AX, Microsoft Dynamics® CRM (Customer Relationship Management) and Microsoft SharePoint solutions.

Utilizing proven methodologies, we assist clients with every aspect of operational and accounting system selection and implementation; including installation, configuration, process redesign, customization, integrations, documentation, training and support. Our professionals have extensive industry, technology, and educational experience. Additionally, our consultants are certified and have more than 100 years of collective experience with Dynamics GP, Dynamics AX and Microsoft CRM.

Industry Specific Applications

BCS works with a variety of Microsoft Certified for Dynamics Independent Software Vendors (ISVs). These vendors develop products that are specifically designed for industry segments. These solutions take advantage of the Microsoft platform and are developed into the Microsoft Dynamics ERP and CRM solutions. This creates the best of both worlds. When companies invest in this software, they not only get operational software that fits their industry but in addition, gain a 'best of both worlds' combination of industry specific applications and the most powerful ERP and CRM solutions available in a fully integrated package. These complete solutions enable organizations to take full advantage of their existing investments in the power of the Microsoft tools that include Microsoft Office Excel, Word, Outlook, Windows Server, Windows SharePoint collaboration and workflow tools, web applications, unified communications and more!
