

Morristown, TN—December 30, 2013 Custom Diesel Inc. is now offering a 2" Leveling Suspension Kit for 2007-2014 Chevrolet 1500, Yukon, Tahoe, Suburban, GMC 1500 & Avalanche Pickups. This Suspension Leveling kit is an easy way to advance your diesel performance by allowing for up to a 32in tire while leveling the front of your truck.

Custom Diesel Inc. has begun manufacturing the new billet aluminum Leveling kit for 2007-2014 GM and Chevy Pickup Trucks, to allow the owner of a standard pickup to increase diesel performance by adding the extra space in the suspension. The lift kit is made from Billet Aluminum 6061 which was chosen for its quality appearance and better corrosion resistance along with being known for its strength.

This set of lower front strut mount extensions immediately improves diesel performance with a higher ground clearance, without the hassle of a long and drawn out installation process. Featuring 100% bolt-on installation. The new Chevy 2" Leveling Suspension Kit is available for just \$49.99. Made right here in the USA, comes with a Limited Lifetime Warranty and is available factory direct by calling 423-254-1262 or by visiting us at www.custom-diesel.com . Please inquire about discounts on large orders.

Custom Diesel Inc., The industry leader in American built accessories for the domestic pickup trucks.
