# Tom Sawyer Software

The industry leader in software for building advanced
data visualization and social network analysis applications

OVERVIEW

Tom Sawyer Software is the industry leader in software for building advanced data visualization and social network analysis applications.

Enterprises and governments use these applications to quickly discover key insights from a growing universe of complex data.

INNOVATION

With twenty years of pioneering research and development experience in graph-based technology, Tom Sawyer Software is the leader in data visualization, data analysis, and insight discovery. The company's products provide new ways for organizations to understand complex data.

Tom Sawyer Software combines considerable enterprise experience, a steady and focused commitment to advanced visualization, layout, and analysis methods, and investments in new game-changing technologies in order to maintain its role as an innovator. Tom Sawyer Software products enable organizations to build data visualization and social network analysis applications and to improve decision making by discovering actionable insights from their data.

COMPANY FOCUS

Recognized for its unmatched data visualization expertise, market-proven products, and global support, Tom Sawyer Software products are used by Fortune 1000 organizations in Financial Services, Defense and Intelligence, Telecommunications, Life Sciences, and Manufacturing.

DATA VISUALIZATION FOR MULTIPLE NEEDS

Tom Sawyer Software provides a variety of products to address the data visualization and analysis requirements of its customers.

Advanced graphics-based software that is purpose-built for easily developing and deploying sophisticated enterprise-class data visualization and social network analysis applications.

- API-based Software Development Kits (SDKs) for building high-performance enterprise-class data visualization applications that require a high degree of customization.

COMMITMENT TO CUSTOMERS

Tom Sawyer Software's core philosophy is to provide the highest quality products and services in order to help its customers succeed. With offices around the world, Tom Sawyer Software provides support to customers 24 hours a day, 7 days a week.
