

# Bitcoin Retail Solutions

## Take Bitcoin!

### Introducing a New Microsoft RMS Extension for Bitcoins

You can now accept Bitcoins with Microsoft Dynamics Retail Management System (RMS) offers small and midsize retailers a complete point of sale (POS) solution.

Bitcoin is an open source, peer-to-peer payment network and digital currency. Through Bitpay's guaranteed exchange rates Bitcoin payment processing fees are substantially lower than those of credit cards or money transfers with true flat rate pricing.

#### The Bitcoin Advantage:

- Reduce fraud & identity theft
- Eliminate chargebacks
- Lower processing fees
- Guaranteed exchange rates
- Direct bank settlement
- POS integration

Using Bitpay's gateway this integration extends the powerful payment processing capabilities of Microsoft Dynamics RMS, allowing merchants to add a safe and secure payment option for the progressive customer.
