

DUVAMIS

The First Anonymous Social Media

What is Duvamis

Duvamis is the first anonymous social media.

It aims to create online environment for sharing and interactions among all free and creative users around the world.

Duvamis Environment

In Duvamis the users participate with their virtual visions, that represent their interests and needs, and not with their social characteristics – gender, race, age, social status, religion, etc.

Duvamis Anonymity

What makes the media unique is that it provides already known features of online communication in a completely anonymous environment.

Duvamis Values

Duvamis bears its name from the Greek word Δύναμις, which means inner power, opportunity, potential.

The main media philosophy is to create a modern, anonymous web-based space, where everyone is able to freely express his own Δύναμις.

The Social Networks Today

In the well-known established social networks, users introduce themselves with their biological and social characteristic and communicate with real individuals in life.

The Social Networks Today

They create their images bearing in mind the imposed norms and other people's opinion, that leads to suppression of their inner feelings and desires.

This model imposes restrictions on the real communication, that everyone needs.

What Makes Duvamis Different?

Duvamis aims to abolish these restrictions in online communication by creating free, anonymous network, where users are not burdened by their biological characteristics and social status.

What Makes Duvamis Different?

A network, where they can share their positive and negative experiences, thoughts and feelings, with no concerns that this may harm their everyday life.

Duvamis Communication

Communicating with others in Duvamis may be a result from sharing the same interests and needs, but not only from searching for specific people.

In Duvamis you can...

Express yourself by unlimited number of virtual visions.

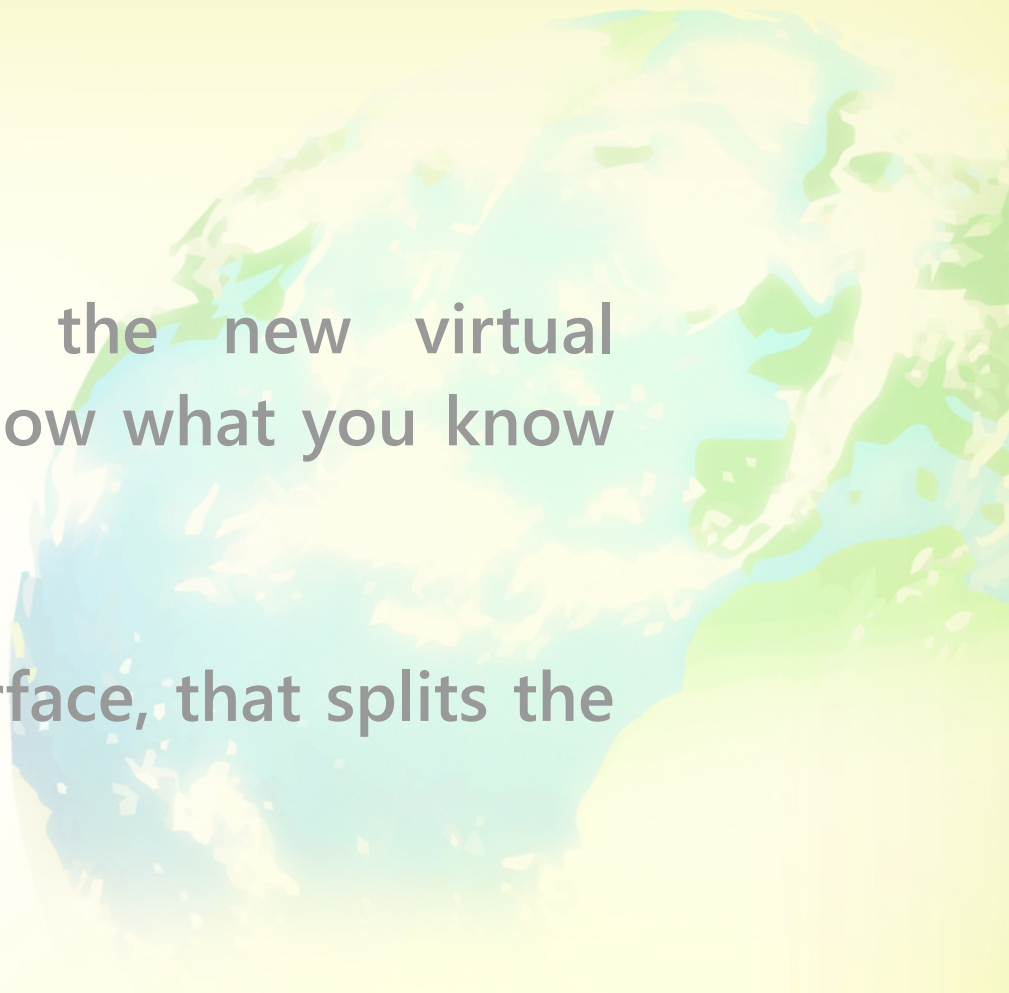

Interact and share in closed communities – Legions.
You can create Legions both with Duvamis soul mates and with real life friends that you invited.

-  Interact in public and share with all virtual visions.
-  Easy and fast share content, such as images, video, links, documents, even your attitudes.
-  Create and participate in polls on hot topics for your new virtual community.

- 
-  Be part of the creation of the new virtual encyclopedia, where you can show what you know or learn something new.
 -  Use conceptually new user interface, that splits the screen into two.

Driving Your Needs

Guaranteed anonymity.

Your interactions are not based on knowing particular people, but on your specific interests.

There are NO annoying ads. Driven by your needs and interests, you can search ads in a distinct element.

Driving Your Needs

Opportunity to recreate your mental world by your created or acquired virtual visions.

There are no limits by how many virtual visions you can express yourself.

Free space for your imagination and needs.

Duvamis Registration

To become a part of the first completely anonymous network, you have the opportunity to register ONLY with username and password.

In order to keep your anonymity, we don't collect any personal data.
