

A Houston PD IFAK

A. Houston Police Department IFAK The Houston Police Department IFAK (Individual First Aid Kit) is a low profile hemorrhage control kit, developed in collaboration with the Houston Police Department and Memorial Hermann Texas Trauma Institute. Designed to fit inconspicuously onto soft body armor using a hook and loop system, the IFAK bag is a multi-pocketed nylon bag, that's both Bery Amendment compliant and Made in the USA.

The IFAK is specifically designed to make life-saving hemorrhage control products easily accessible at the point of wounding. The kit comes equipped with two C-A-T® Tourniquets, the proven 100% effective one-handed tourniquet, as well as one Z-Fold Combat Gauze LE Hemostatic Dressing, the effective, simple, safe-to-use hemostatic dressing.

Dimensions: L 8 in. x W 10 in. x D 1.5 in.

B C-A-T® Tourniquet

B. C-A-T® Tourniquet The patented C-A-T® is a true one-handed tourniquet proven to be 100% effective by the U.S. Army's Institute of Surgical Research. Tests proved that the C-A-T® completely occluded blood flow of an extremity in the event of a traumatic wound with significant hemorrhage.

The C-A-T® utilizes a durable windlass system with a patented free-moving internal band providing true circumferential pressure to the extremity. Once adequately tightened, bleeding will cease and the windlass is locked into place. A hook and loop windlass retention strap is then applied, securing the windlass to maintain pressure during casualty evacuation. The C-A-T®'s unique dual securing system avoids the use of screws and clips which can become difficult to operate under survival stress or where fine motor skills are compromised.

C Combat Gauze LE

C. QuikClot® Combat Gauze LE QuikClot® Combat Gauze LE™ is a soft, white, sterile, nonwoven 3" by 4 yds Z-folded gauze impregnated with kaolin, an inert mineral that does not generate heat. QuikClot® Combat Gauze LE™ is individually wrapped in an easy rip, military grade foil pouch. Indicated for temporary external control of traumatic bleeding, QuikClot® Combat Gauze LE™ is flexible and pliable and contours to all wounds. Effective, simple and safe to use when trying to control life-threatening hemorrhage from wounds that are not amenable to tourniquet application.
