

## AGMedia: Promote your cultural happenings

Communicate your message with high impact and style.

At AGMedia, a division of The AmGraph Group, our job is to creatively communicate your message, captivate your audience, and lead them to you. We do this by specializing in City Light Pole Banners (CLPBs) - a niche form of outdoor advertising that combines beautiful design with repetition of your message along busy streets.

### POWERFULLY EFFECTIVE MARKETING

Our eye-catching banners are displayed on numerous consecutive light poles throughout Los Angeles and busy thoroughfares in major cities along the west coast. The banners promote non-profit events, museum exhibitions, civic announcements, cultural happenings, neighborhood recognition streetscapes, and more. This repetition ensures that the marketing message reaches diverse consumers many times - not just once.

### OUR SUCCESS IS YOURS

As the industry leader and the largest provider of light pole banners in Los Angeles and up and down the west coast, we have the experience and expertise to make your campaign high impact and hassle-free. With our turnkey approach, quality production process, and reputation for delivering results, our success is yours.
