

modero S series

Simply Beautiful, Beautifully Simple, Scheduling and Control – Now In a Gorgeously Cost Effective New Touch Panel Family

Want to bring the same sleek styling, control and scheduling functionality of the award-winning Modero X Series into all your meeting space designs – even those with budget constraints? The new Modero S Series perfectly complements the design of the Modero X but is more applicable for cost sensitive installations such as smaller huddle spaces. It's also perfect for dedicated wall scheduling outside meeting rooms. Even though the Modero S is priced significantly less, you still get much of the core functionality that makes the Modero X so powerful, including beautiful 24 bit color depth, streaming video, and elegant low profile mounting options like surface/glass and secure lectern/tabletop. With the range of options available, the Modero S will enhance the sophistication of any architecture.

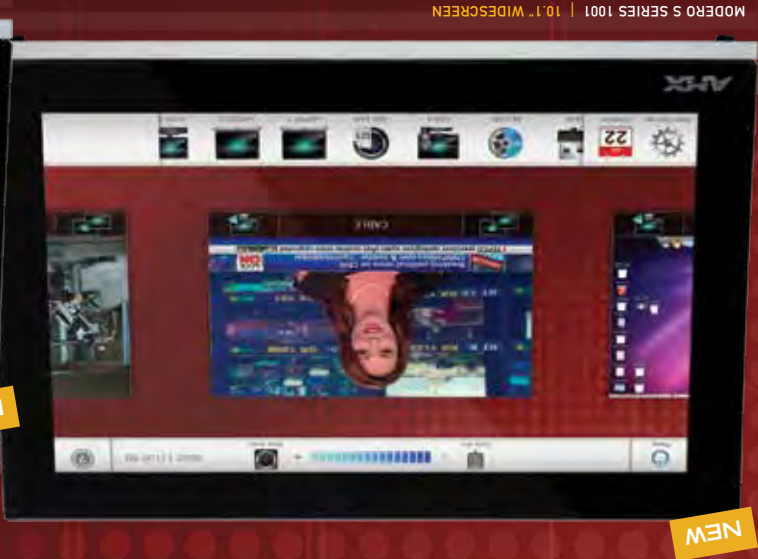

NEW

- Architectural design consistency with both Modero S and X – available in 4.3", 7" and 10.1" in both table and wall mounts
- Easily Schedule Rooms with Front & Side-Facing Room Availability LEDs – Our wall-mounted Modero S Series touch panels include front- and side-facing LEDs to make room scheduling and quick determination of room availability easy whether viewing straight-on, at an angle or from down the hall.
- Secure mounting options – Discourage theft with secure lectern/table mount options
- SmoothTouch™ Glass Overlay Technology – Combines resistive touch and glass into a single overlay that is more rugged and has a greater tolerance to electrical noise than capacitive touch glass overlays. SmoothTouch is also ideal for its ability to connect with the user via indirect touches like a gloved hand, stylus, or prosthetic.

Basic Beauty, Rugged Form

Now there's a tabletop Modero for even the most budget conscious basic meeting spaces. The Modero S 7" and 10.1" panels provide full room control, VoIP, brilliant 24-bit color depth, PoE connectivity, Bluetooth, USB and streaming video. With all this and new ruggedized plastic housing and secure mounting they have a place at every table.

KEY FEATURES

- **Maintain Design Consistency on a Budget** – No need to compromise style to meet budget, the new Modero S line perfectly complements the original Modero X
- **Secure Table Mount Kits** – Attract customers like higher education with this reassuring theft deterrent
- **Smoothtouch™ Glass Overlay Technology** – Combines resistive touch and glass into a single overlay that is more rugged and has a greater tolerance to electrical noise than capacitive touch glass overlays. Smoothtouch is also ideal for its ability to connect with the user via indirect touches like a gloved hand, stylus, or prosthetic

10.1", 7" & 4.3" MULTI MOUNT KITS

KEY FEATURES

- **Front-facing and Side-Facing Room Availability LEDs for 180° Viewing** – Front- and side-facing LEDs make viewing room availability visible from any angle. Easily glance down the hall and determine whether meeting spaces are occupied no matter if they are being viewed straight on or from the side.
- **Architectural design consistency with both Modero S and X** – available in 4.3", 7" and 10.1" in both table and wall mounts
- **Stylish mounting options for any surface including glass** – Use new Any Mount kits to install in any room with a light switch/gang box
- **SmoothTouch™ Glass Overlay Technology** – Combines resistive touch and glass into a single overlay that is more rugged and has a greater tolerance to electrical noise than capacitive touch glass overlays. SmoothTouch is also ideal for its ability to connect with the user via indirect touches like a gloved hand, stylus, or prosthetic

Scheduling Can Be a Thing of Beauty

Is that meeting room available? Who's in there? When will they be done? Can I reserve the room yet? These are all very simple questions that can be surprisingly difficult to answer. Until now. Place a Modero S Series Wall Mount Touch Panel outside every meeting room to view the room schedule at a glance and even reserve it right there at the panel – and get all of this at a price that fits just about any installation budget.

NEW

Secure Your Panels in Style

Make sure the most simply beautiful and beautifully simple touch panels stay safely where you put them with our variety of secure and stylish mounting options. These cost-effective, intelligently designed solutions provide the flexibility to solve any integration challenge.

24/7 SECURITY

New secure table mounting hardware is a beautifully styled plate that when attached to the Modero X or S 7", 10.1", 19.4", 20.3" or 4.3" Tabletop Touch Panels and secured with the under-table tamper resistant bolts will make it virtually theft proof. Need a solution that doesn't require the touch panel be mounted to the table? The secure mounting plate can be attached to the touch panel (but not the table) and then secured with a Kensington® Lock. You can even use both.

MULTI MOUNT

The Modero S Touch Panels can be mounted to any smooth surface including glass, blending the beauty of Modero S with the ever growing trend towards glass surfaces in education and corporate facilities.

NEW

ANY MOUNT

Mount Modero S Series Touch Panels in any room with the new Any Mount kit. It's as simple as replacing a light switch.

TOTALLY FLUSH

All Modero X Wall Mount Touch Panels can now sit perfectly flush within the walls. Want access to the side buttons? Or, do you want to expose the speakers for better audio? Simply press on the touch panel and the spring-loaded mechanism allows the panel to sit slightly farther out.

BEAUTY IN THE SERVER ROOM

Modero X 7", 10.1", 19.4" and 20.3" Landscape Wall Mount Touch Panels, and Modero S 7" and 10.1" Wall Mount Touch Panels can

be mounted directly to an equipment rack.
